In Minden

Sewers working by summer

Beulah and Allan Cowen, of Victoria Street in Haliburton, shared a winning ticket in last week's Wintario Draw. The ticket, worth \$100,000 was also shared by their son Wayne. The Cowen's aren't sure yet what they will do with the money but they are sure they will find something.

Haliburton couple wins \$100,000

Haliburton - Beulah and Allan Cowen, of Victoria Street, Haliburton, have been buying lottery tickets for some time but last Thursday night it all paid off. It paid off to the tune of \$100,000.

The couple, along with their son Wayne, who lives in Hamner, share the winning ticket on the second grand prize in last Thursday's Wintario Draw.

Mrs. Cowen said that she watched the draw on television and realized that she won right away. She just wasn't sure how much money, though.

Mr. Cowen, who said he came running when he heard his wife "screaming and yelling that she had won," realized right away that they were \$100,000 richer. He pointed out that it was in the second last draw of the evening.

When you are \$100,000 richer suddenly, do you get much sleep that night? Mrs. Cowen said she hardly got any sleep, but Mr. Cowen pointed out that he dropped off "like a log" when he finally went to bed.

One of the problems though was the phone ringing. Mrs. Cowen said that they phoned a couple of people after they had won and from that time on the phone hardly stopped ringing.

Mr. Cowen pointed out that it was more of the same the next day with the phone ringing constantly.

Mrs. Cowen, although she didn't get much sleep the night of the draw, took the winning in stride and went to her job as the head cook at the Haliburton Hospital.

Mr. Cowen was all set to go to work at his job as a carpenter but was stopped by the rain, not the fact that he was suddenly a lot richer.

He said that he decided to get some work done around the house on Friday but it turned out to be impossible with people calling to offer their congratulations.

Mrs. Cowen said it was quite a bit quieter at work, where she received a number of handshakes and hugs but not many phone calls.

Mrs. Cowen admitted that winning is great but she has been on a lucky streak lately. She pointed out that she has been winning at the bingo lately.

Mr. Cowen on the other hand pointed out that they have been buying tickets on draws for many years and this is the first time they have ever won anything. He added that perhaps the money they won Thursday night will get them about even on the amount they have spent on tickets over the years.

The Cowen's buy four tickets on every Wintario draw. Mrs. Cowen pointed out that they had been buying a book of five tickets up to last summer but decided to cut that down by one.

What will the Cowen's do with the money? Mrs. Cowen said she hasn't decided yet and Mr. Cowen said that they will just play it by ear, because he would like to see "the color of it first."

Minden - Minden residents will likely be hooked up to the new sewer system sometime next summer.

Reeve, Reg Booth told The Haliburton County Echo and Minden Recorder that with the signing of the final contract for the project it ends a job which started for the municipal council of Anson, Hindon and Minden back in 1955.

He noted that the final contract for the sewage treatment plant, is for one year, but the council is hoping that it will be completed early in the summer to give everyone the opportunity to hook into the system.

Reeve Booth said that with sewers and water both being in Minden, it will make a great deal of difference concerning development.

He pointed out that there are 170 residential lots waiting for the sewers to be installed. He pointed out that having the sewers will facilitate all kinds of building.

When asked if it will help get industry in the municipality, Mr. Booth said, "I hope it will have some bearing on industry and I think it will."

Minden first applied for sewers in 1955 but were told that the municipality would have to get a water system first.

Near the end of the 1950's the municipality applied for its water system and in 1962 the water system was turned on at a cost of \$167,000 for the system and pump house.

Reeve Booth pointed out that there was a noticeable increase in the sale of building lots in Minden as soon as the water went on. He pointed out that the price of building lots went up as well.

Reeve Booth added that when the water system was first turned on a number of residents who didn't want it saw the benefit and asked to be hooked on. Within a couple of years an auxiliary pump had to be added.

A survey by the Ministry of the Environment in the late 1960's showed that there was a need in the village for sewers and the Reeve points out that is when the council really started to push.

He said that the survey showed the Minden was among "520 needy areas" for sewers in Ontario.

At the time though the subsidy was only 50 per cent and the municipality was told that if they waited a couple of years the subsidy would go up to 75 per cent.

The widening on Highway See page 8

Booth invited to Minden, Germany but is not going

Minden - Anson, Hindon and Minden Reeve, Reg Booth, will not be making a trip to Minden, Germany because as he put it the council didn't want to talk about it.

Reeve Booth said that he was invited by the mayor of Minden, Germany to speak at a number of functions and tell the people of that Minden about Minden, Ontario.

Reeve Booth said he asked the council for a week long trip which would have been about a \$1,200 expense for the municipality.

He pointed out that he made it clear that he would not be going if there were any objections.

He pointed out that the council did not seem to want to talk about it.

Reeve Booth admitted that there is the possibility that the trip could be beneficial to Minden, Ontario but "How do you assess the value of a trip," he added.

64 general occurrences investigated

Minden - During the week of Sept. 26 to Oct. 2 the Minden detachment of the Ontario Provincial Police investigated 64 general occurrences, three motor vehicle collisions and four break-ins.

There were two compassionate messages delivered and two persons charged with impaired driving.

He said he was surprised that the municipality did not want to send a person to the German town.

The town of Minden, Germany, is presently celebrating its 1,000th anniversary.

\$25,000

\$20,000

\$15,000

\$10,000

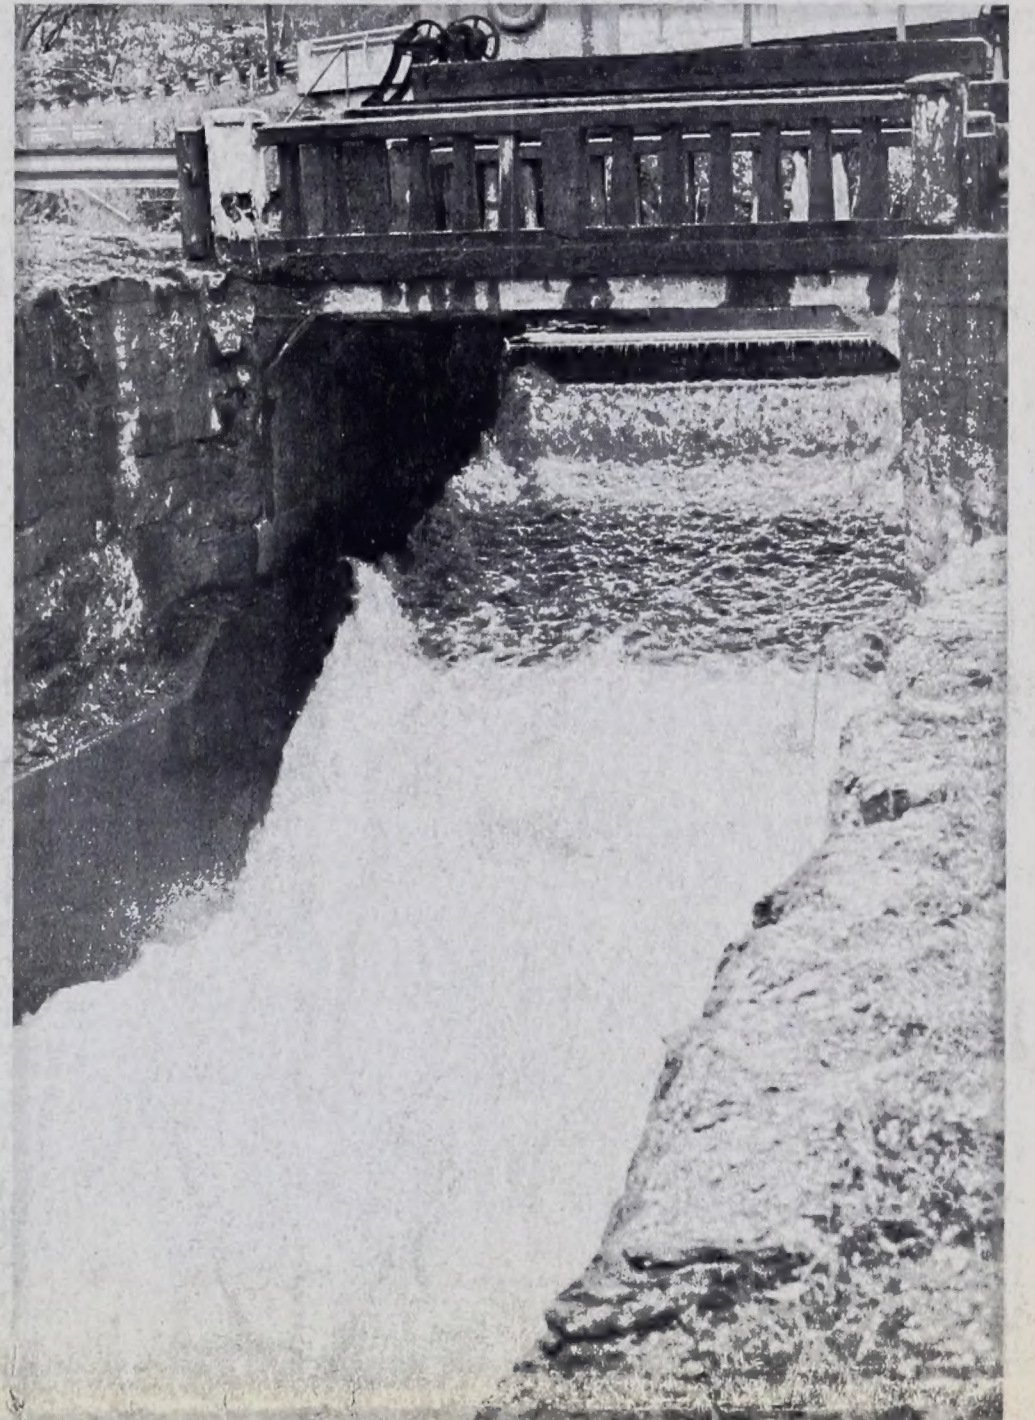

\$5,000

Haliburton - Recent donations to the Dysart Arena Fund have raised the total to \$22,578.94.

The objective of the fund is \$25,000.

Donating in the past week were W.R. Demars, \$10, Haliburton Chalkdusters \$50, N.K. Baulch \$4.94, Hilda Kellett \$10, and the Haliburton Fire Department \$250.

Donations may be sent to Box 382, Haliburton.

Buttermilk Falls seems to run right off the page as the water turns white as it rushes from Halls Lake. The falls are just part of many interesting waterways one can find along Highway 35. Halls Lake is the deepest fresh water lake in North America.

See page 13

Couldn't find house

Department misses fire

Minden - A chimney fire in a Scotch Line Road home two weeks ago caused some confusion for the resident of the house, a neighbor and the Minden Fire Department.

Lee Mann, the resident of the house, said that she managed to extinguish the fire but it was still smoldering. Her neighbor, William Burridge, suggested that she call the fire department to have them come and check the fire.

She told The Haliburton County Echo and Minden Recorder that Mr. Burridge left his truck lights shining on

the house to help the fire department find the place. Mrs. Mann pointed out that the department truck went right by so on the return trip she went out and waved. The truck still drove right by the house.

Mr. Burridge said that he followed the truck back to the fire hall where he asked them to follow him back. He

pointed out that they still haven't got to the fire.

William Jackson, the Minden Fire Chief, said that when the fire was reported it was pointed out that it was out. He said that the firefighters were unable to find the location of the fire when they went out.

There was only a couple of hundred dollars damage in the fire.

Six charged in Sept. 28 break-ins

Minden - A total of six persons, two of them juveniles, have been charged in connection with a break and enter Sept. 28, early in the morning, in the Furnace Falls area.

The OPP report that Arthur Legere, 16, Kim Luchychi, 16, Lori Scrimshaw, 17 and two juveniles aged 14 and 15,

have been charged with three counts of break and enter each. Danny Neron, 16, was charged with two counts of break and enter.

All of the accused were also charged with attempted theft.

They are from Camp Chimo in the Kinmount area.

Rick Wood is named coach of the Huskies

The Haliburton Travelways Huskies manager, Don Lloyd, announced Monday afternoon that Rick Wood has agreed to coach the club for the 1977-78 season.

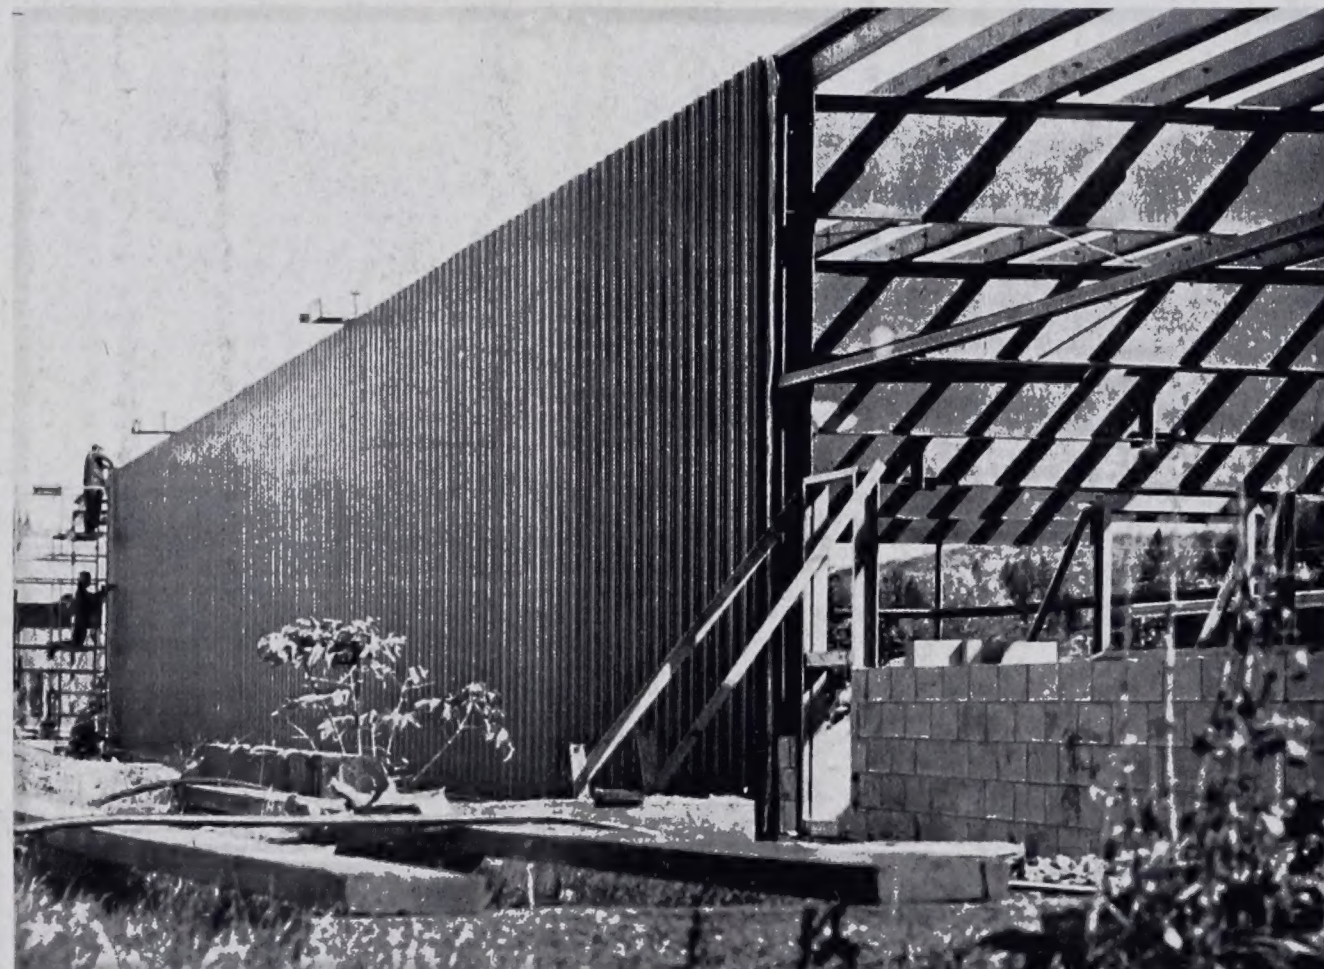

Wood replaces the coaching team of George Nicholls and Craig Stamp. Stamp has moved to Woodstock to play senior hockey.

Wood was captain of the Huskies for three seasons. He last played with the team three seasons ago.

He coached an Ontario Minor Hockey Association team in Haliburton last season.

Mr. Lloyd also announced that Brian Black, a former coach of the Huskies, will be helping Wood this season with the team.

The Huskies are waiting for the schedule this year, but expect to be practising by the middle of the month.

The Haliburton Curling Club is taking shape. The outside walls were being put up on the building early this week. The construction started a couple of weeks

ago on the new club. The old building was taken down during the summer. Plans are being made to raise funds for the project.

From the Chamber

BY BOB STINSON

We were very pleased last week to have the opportunity to speak with the Haliburton Real Estate Board at their first regular meeting of this season. This new board was formed to represent the Haliburton area, in place of the old board which based in Lindsay covered Haliburton and Victoria as well. The board essentially is providing its members with a facility through which they can co-operate on M.L.S. listings. Beyond this area we discussed what other services this board could be providing. Since it involves one particular interest group, of course,

it can provide input to various levels of government, and provide a monitoring service as far as new legislation is concerned. It was agreed that the board could provide a great deal of expertise in the area of planning and that government bodies should be advised that their services were most certainly available. Since Haliburton County council have just announced that they have voted in favor of an interim development planning policy, it was a very appropriate time for the board to be asking to get involved. Far too often these days we

are chasing around after the fact, trying to change policy that has already been established. In many cases if we had been paying close attention at the time the legislation was being drafted, and possibly have a far better chance of getting our view point across at that time. This is an area in which not only the Chamber must become far more aware, but any other interest group such as this real estate board who feel they have something relevant to say on any given matter.

The big white house adjacent to Ron Gambell's car lot in Minden, has been rented to Kevin Harris and Denise Lemay who have just opened K & D Subs. We certainly welcome Kevin and Denise to our business community and wish them well in this new business venture.

Peter Gorman & Sons (formerly Webster (Wholesale) have just moved their

entire operation from Fene-lon Falls to Peterborough. The company has purchased the premises of Harrison Hewitt Ltd. at 765 The Kingsway and will now be servicing all the former customers of all three companies under the name of Peter Gorman & Sons. Through their facilities the "Haliburton is for Lovers Buttons" have been made available for some time to the Chamber and all of their customers. They presently have a number of buttons in stock and have just ordered an additional 5,000 to make sure there is an adequate supply for both ourselves and yourselves. The directors are presently investigating more ways of making use of this popular logo. Dominion Hardware had an excellent response to their cardigans which carried this logo and have now sold out of this item but hope to obtain a new supply.

The "Haliburton is for Lovers" charms were made available last Christmas for the first time at Robinson's Store in Dorset and Varty's Jewellers in Haliburton. Marvin Varty has now obtained a quantity of silver spoons carrying the logo which are extremely attractive. There is still a good supply of In Quest of Yesterday, in addition to Nila Reynolds new books, Dream of Excellence which appeared this year. Thanks once again to Nila Reynolds. With all these items being available throughout the county we're sure they will help to fill some of those holes in your Christmas list.

When someone complained about the rain the other day, a bystander was heard to say "It's not very nice but after all we do need it, the lakes are so low and many wells are running dry." The others looked at him in some amazement. After all, after seven weeks of rain, practically every day can we really be expected to believe we need more? Obviously there has been absolutely no attempt to retain any of the heavy precipitation we have been getting to bring those lake levels back up to reasonable navigation level.

It was absolutely amazing how many tourists endured the atrocious weather last weekend and visited us anyway. With any kind of decent weather at all, I think we can safely predict that Thanksgiving weekend will be a record breaker for visitors. There will be lots for them to do with both Wilberforce and Minden providing an Autumnfest and Octoberfest respectively. We do urge you

all to come out and support both of these events and make our many visitors feel welcome.

Rumors that Pierre Trudeau has been nominated for the award of Highlander of the Year at next week's annual

meeting are entirely unfounded and unsubstantiated. He was ruled ineligible because he does not live in the Highlands. Now that he's eliminated, it could be you, so why not come and find out on October 12th.

Haliburton Kinsmen Happenings

The time has finally come for the Kinsmen Truck Draw. Very few tickets are left, so if you have not got your ticket yet, this coming week is your last chance to buy one.

To mark this event, the Kinsmen Club is holding a dance on Saturday, October 8, 1977, Thanksgiving weekend. The popular rock group Kkuff will be supplying the music. Admission only \$2.50 per person.

Coming up on November 12/77, the Kinsmen Club will be holding a gun draw dance at the Haliburton Legion for only a dollar per ticket. You have a chance at winning two guns. These tickets will be available starting this week from any Kinsmen member. Only 1000 tickets to be sold. Last year's winners were Don Walling, Gene Newell and Anthony Biagi. The guns are now on display at Kennedy Surplus.

This past weekend a number of the Kinsmen and their wives attended the Fall Inter-Club in Minden, hosted by the Minden Kinsmen Club. Twelve clubs from Brighton to Haliburton took part in this annual fall meeting of Kinsmen Clubs in Zone C.

A thank-you note in last week's Kinsmen column should have read Bob Sisson instead of Bob Stinson.

News from Extendicare

BY DR. O.W. ANDERSON

Mrs. Hazel Parish returned on Friday from a visit with her sister, Mrs. Gerald LeBoutillier who lives on the shore of Lake Koshog. Mrs. Parish informs us that her daughter, Mae, who was injured in a motor vehicle accident has still not quite recovered.

Sister Iva, brother Bert and his wife Thelma dropped in to see Dr. Anderson on Wednesday. These three, two brothers and a sister, represent what is left of a family of seven. It began in 1870, a bride and groom travelled by stage from the Grey Bruce area to Yonge St. where the Peterson Road crosses, up Yonge St. (now Highway 11)

to Sundridge which is on the shore of Lake Bernard. Mostly the groom, by his own labor, built a two storey frame home grouted by gravel. It is of historic interest that Lake Bernard derives its name from a famed Indian scout named Bernard but pronounced "b'nor" who spent his life in the area of Peterson Road and Yonge Street. He found his way into Canada archives so something had to bear his name. Lake Bernard was formerly Stoney Lake.

It must have been a quite bitter pill for Premier Davis to swallow when told by the Japanese that Canada has

priced herself out of world markets, that there are too many strikes and too much government. Now he is told the same thing by his Minister of Labor. He is certainly not blind in intelligence so he has known it himself all along but even so, he continued on his present course willy nilly. It would seem that now we are in a serious crisis that can only be efficiently dealt with by crisis tactics. If all persons in Ontario working for hire of any kind could be induced to accept a 6 per cent reduction in remuneration annually, on January first each year we could be out of serious trouble in five years. This would also presume that labor would make no demands for increases in that period.

Mrs. Evelyn Anderson has been returned to us after a short stay in a hospital in Peterborough. It will be a little while before she can walk with the rest of us, but let's give her lots of encouragement.

CURRY MOTORS LTD.

HIGHLAND STREET — HALIBURTON, ONTARIO 457-2100

Eakins hopes mission will prove more fruitful this year

Last week Claude Bennett launched his round-the-world trade, investment and tourism mission and John Eakins MPP for Victoria-Haliburton hopes it will prove to be more fruitful than some of the province's earlier ventures into foreign markets.

Almost a year ago to this date, a similar investment-seeking mission to major European capitals cost the taxpayers of the province \$91,372.06, he said.

"That wouldn't have been an exorbitant figure if it had produced some results, but so far, while a lot of activity may have been generated from the trip, that activity as of this date has still not produced one single dollar of investment for the province. The Foreign Investment Review Agency (FIRA) is generally the target of criticism for delays in processing applications. FIRA officials, however, state that it now takes only about 66 days to process an application (as compared to about 120 days 18 months ago) and far fewer applications are being rejected. In fact, FIRA has approved some 24 new investments and 12 acquisitions following directly from this last mission. While these proposals should materialize, we will experience a certain time lag (traditionally of at least 18 months according to the Ministry) and while we wait, we, of course, risk changes in economic conditions that could be detrimental to investment proposals by foreigners," he noted.

Mr. Eakins pointed out that another experiment in borrowing in foreign money markets resulted in a \$9.55 million loss to Ontario taxpayers in 1975. "This was due to the revaluation upwards of the German Deutsche Mark (DM) after taking out loans in this currency. The province will be faced with further substantial losses in this sector when loans currently outstanding become due within a few years. And Ontario Hydro also holds vast sums of money in German DM and Swiss Francs - the two currencies that have appreciated by the greatest amount since 1970," he said.

Mr. Eakins said, "Against this record Claude Bennett and Bill Davis have embarked on another round-the-world mission. What can we expect from this trip - in terms of the cost of the mission and the possibility of future losses similar to our current experi-

ences with foreign borrowings. At a time when business failures in Ontario are running at record levels, having reached a total of 1,100 for the first eight months of the year, it seems incongruous that we are almost turning our backs on our own ailing industrial sector to seek new investment from abroad.

"When job losses occur such as 500 in the case of Bad Boy and another 1,000 in a slowdown at Electrohome Ltd. this past year, forcing more workers out into a shrinking job market, can we

afford to sit idly by? And now that the number of bankruptcies in Ontario has increased to the point that they currently account for one-half of the Canadian total, can we really justify the expenditures for such missions when up to this point in time there is no concrete evidence to show their effectiveness in bringing investment dollars to the province.

"I hope I can convince the Minister of the problems faced by our industrial sector a little closer to home when he returns to the province."

Reservoir at 37% maximum Sept. 26

The Northern Reservoirs had 37 per cent of maximum storage left on Sept. 26. There was a 2 per cent loss in total storage over the past week. Outflows from all the reservoirs have been held at minimum values.

The continued wet weather

over the Kawartha Lakes has caused flows to be increased in order to keep the lakes from exceeding their maximum navigation levels. After all the weeks of rainfall, this past week has been the first that we have been able to go above minimum outflows from the Kawartha Lakes, a sign that the ground is fairly saturated and not absorbing all the water that falls on it.

Equal Percentage Draw-down of the Reservoir Lakes will be abandoned after October 10th, and the lowering of the lakes to their water holding level will proceed as quickly as possible so as not to disturb Lake Trout spawn. In the Kawartha, Deer Bay Reach will be lowered approximately 5 feet from October 15 to November 15, and Lovesick Lake will be lowered 2½ feet from October 15 to November 15.

Boat traffic locked on the Waterway as of September 11, 1977 was 177,908 vessels. This is slightly up from last year, when 176,473 vessels had been locked. It took 101,355 lockages to lock this number of vessels compared to 103,716 lockages for 1976.

Work will begin within the next week on the Glen Ross Bridge. A temporary bridge will be placed for vehicular traffic and motorists using the bridge should proceed with caution.

Boaters can expect a slight delay as the temporary bridge is removed by crane across the canal to allow passage. Once the boat has passed the bridge will be placed back in position for the road traffic.

Man charged with public mischief

Haliburton - Mr. Joseph Doughty, 62, of Haliburton, has been charged with public mischief under the criminal code as the result of an incident Oct. 1 at a hotel in Haliburton.

The OPP report that Doughty claimed that someone had damaged his vehicle while at the hotel. The OPP report that the damage had happened about five minutes earlier on Peninsula Drive when the car was backed into a tree.

Smokey returns to Molou

Haliburton - Smokey and the Bandit is returning to the Molou Theatre for three more days, Friday, Saturday and Sunday, Oct. 7, 8 and 9. Officials of the Molou point out that this will make it the longest run in the history of the Molou and Beaver Theatres, in Haliburton and Minden.

Al Mahaffy of Mahaffy's Upholstery and Interiors works on a piece of furniture in his shop. The new business is located on Highway 121 west of Haliburton Village. Mr. Mahaffy has 24 years experience in the upholstery business.

New upholstery and interior service is open in Haliburton

Haliburton - Haliburton County has a new service this week with the opening of Mahaffy Upholstery & Interiors on Highway 121 west of Haliburton Village.

Al Mahaffy, the owner of the business, pointed out that upholstery and repairing furniture will be the main part of the business. He pointed out that he has 18 years experience with his own business, in the Georgetown area

and six years experience working for other people before that.

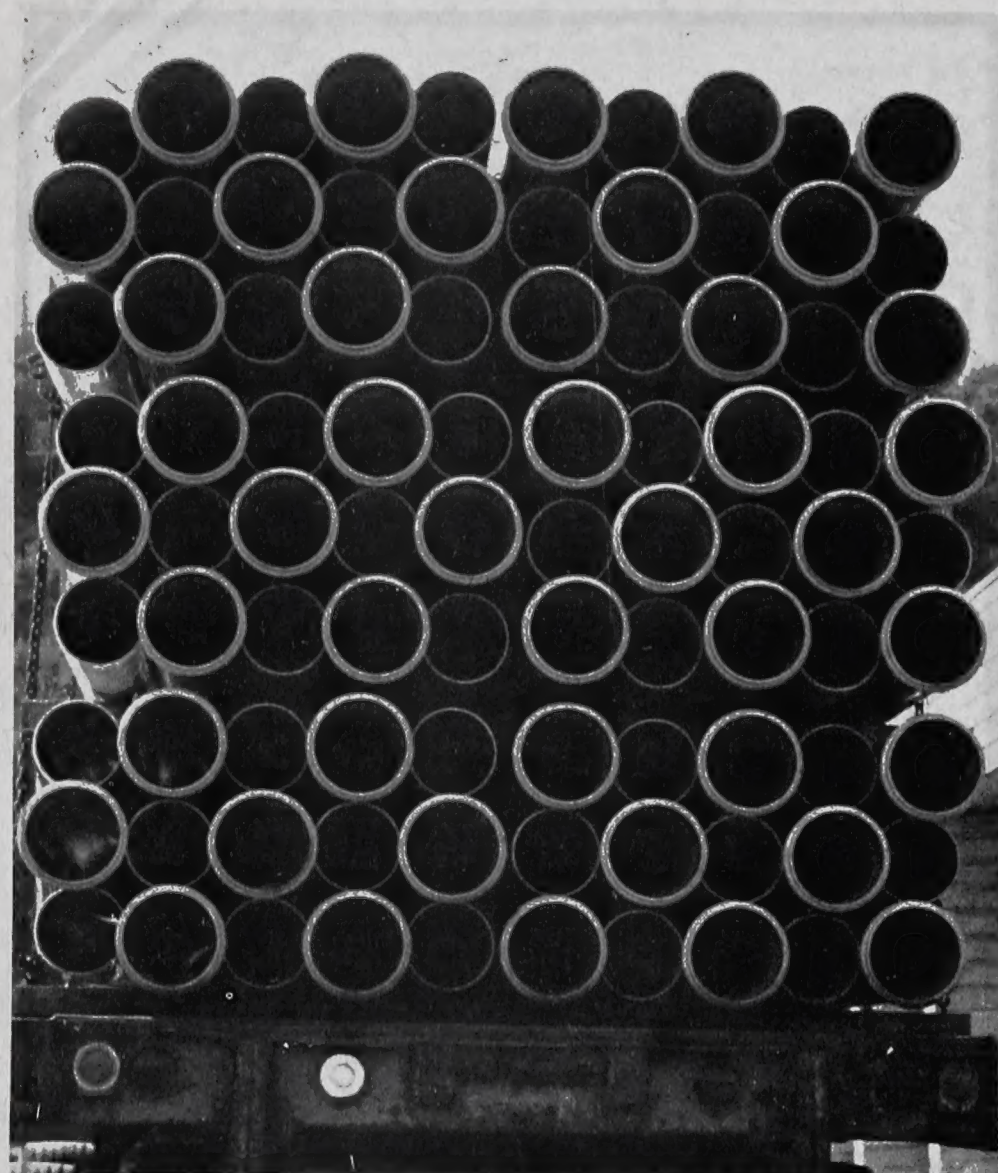

He and his family have moved here from Georgetown. Mr. Mahaffy pointed out that his wife was born and raised in Haliburton County.

Mr. Mahaffy said that he will be working in all areas of the upholstery business, including car seats, restaurant work and just about everything that is brought to him. He noted that he will also

refinish antiques "to a professional finish."

As far as he knows, nobody else in Haliburton is doing refinishing work as a full time job. He pointed out that his shop will likely employ a couple of helpers other than himself when it is in full operation.

The Mahaffys have recently built the shop and house on Highway 121 west of the village.

The piping will soon be part of the Haliburton Village sewer project. The work on the project started early this week and the contract is for one year. The contract for the sewers was awarded last week to Tripp Construction.

Car crash results in \$2,000 in damage

Minden - A single car accident on Highway 121, north of Kinnmount, resulted in \$2,000 damage to a vehicle driven by Glen Chalmers, 27, of R.R. 1, Kinnmount. The accident took place Oct. 1 at 9:45 p.m.

The Minden detachment of the Ontario Provincial Police report that the vehicle was northbound when it struck a rock face on the west side of the road.

Chalmers has been charged with impaired driving, no insurance and failing to wear a seat belt.

There was \$2,000 damage to a car driven by Susan MacMinn, 25, of Minden, when it was involved in an accident on Highway 121 in Minden Township.

The OPP report that the car was eastbound when it entered the north ditch and rolled over.

The driver received mini-

mal injuries. The accident took place Oct. 1 at 12:30 p.m.

A single vehicle accident on a private road in Harburn Township resulted in \$10,000 damage.

Argument ends in fistfight

Minden - According to the Minden OPP a verbal argument between two men resulted in a fist fight and one person being charged with assault causing bodily harm.

The incident took place Sept. 30 at 9:10 p.m. on Bobcaygeon Road in Minden. The OPP report that two

The OPP report that a dump truck driven by Raymond Joudrey of Scarborough was travelling down the road when it caught fire.

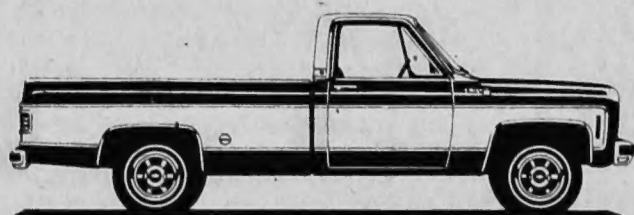

The accident took place at 12:30 p.m., Oct. 1.

men had an argument which turned into a fist fight resulting in one man receiving a cut lip and bruises about the head.

Charged is Daniel E. McKelvey, 20, of Minden. The injured man is Mark Taylor, 19, of Scarborough.

INVITES YOU TO NEW TODAY. and Oldsmobiles

anytime during the balance of the week.

PICKUP

Still one tough truck with increased corrosion-protection in '78. This year, Chevy adds a special model to the family - the ½ ton pickup with the new 5.7 litre (350 cu. in.) V-8 diesel engine.

SPORTVAN

Seats up to twelve, with features like available high bucket seats that swivel and recline. Tougher than ever with improved corrosion-protection in areas where it counts (galvanized steel front wheelhousings plus polyurethane stone shields in front of rear wheelhousings).

DELTA 88

It's hard to improve on success. But Oldsmobile has done it! 32 km/g (20 mpg) city, 44 km/g (27 mpg) highway, for an available 5.7 litre V-8 engine with automatic transmission and 2.41 axle ratio. New Diesel V-8 engine available too in '78.

OMEGA

The most affordable Oldsmobile. Good on gas, very manoeuvrable and a snap to park. 34 km/g (21 mpg) city, 48 km/g (30 mpg) highway, with a 2-bbl. 3.8 litre (231 cu. in.) V-6 engine with available automatic transmission and 2.56 axle ratio.*

SUBURBAN

Versatile. Can seat up to nine people or take three in the front and make available 144 cu. ft. of cargo space - up to 3,100 payload lbs. Seats, holds, tows more than any ordinary passenger car wagon. No wonder we call it Superwagon.

BLAZER

Double-wall tough. Agile. Can make quick cuts (35° turn angle) when it has to. Available with 4-wheel drive to come through under all kinds of conditions. Snow, ice, mud - you name it. Now with extra leg room for rear seat passengers.

Can we build one for you?

Chevrolet

GM

Canada

OLDSMOBILE

*Remember these figures are estimates based on approved Transport Canada test methods. The actual fuel economy you get will vary according to the kind of driving you do, your driving habits, the car's condition, and available equipment. Some of the equipment illustrated is available at extra cost.

Echo editorials

Minden sewers were a major undertaking

Perhaps the greatest undertaking in the history of the village of Minden is nearing completion. The village will soon be serviced by sewers.

It has been a long hard battle for the village, municipality of Anson, Hindon and Minden and the various people who have served on the municipal council over the years.

In a news story which appeared in last week's Haliburton County Echo and Minden Recorder it was pointed out by Clerk-Treasurer, Richard Parisotto, that Minden first applied for sewers in the late 1950's.

The present project's planning first began in 1969.

The final contract to be awarded was for the construction of the sewage treatment plant at a cost of \$1,259,369. There are no more outstanding contracts on the sewers in Minden now. This means that residents of the village can expect to have sewers sometime next year.

The sewers will mean a great deal to Minden development wise, industrially, commercially and residentially.

Needless damage

The new Zamboni ice machine at the Dysart Community Centre is presently being repaired. The machine needed repairs because someone decided to break into the arena and inflict some destruction.

Is that how mindless our society is today? Is a senseless break-in at the Dysart Community Centre going to become more and more a part of our everyday life?

The people of Dysart et al have given a great deal of money to buy equipment like the Zamboni. Many people have given a great deal of their time and effort in making sure that Haliburton has the best in equipment.

When the person or persons who damaged the Zamboni get caught we challenge our courts to give them as severe a penalty as possible for such a senseless offense.

CNIB needs help

A story which appeared in the front page of last week's Haliburton County Echo explained some of the things that Ken Billings has gone through since losing his eyesight in an accident a year and a half ago.

The story goes on to show just what the Canadian National Institute for the Blind has done to help Ken.

Ken has a folding white cane, a braile watch, talking book service and has had lessons in crafts as a result of work done by the CNIB. Since the time of his accident he has been visited by several Canadian National Institute for the Blind staff members including Don Ferguson, district administrator, from Peterborough, who is also blind.

The work of the Canadian National Institute for the Blind can be seen in what Ken Billings has today. The CNIB is presently on a campaign to raise funds and the people in Haliburton have first hand information on what the institute can do.

Give point of view

The editorial page of The Haliburton County Echo and Minden Recorder offers readers the opportunity to give their point of view on many subjects.

All you have to do is write a letter to the editor signed, with your address.

The Echo also is in need of Pics of the Past which we will publish and then return to the owners. They can be sent into our office by mailing the pictures to Box 360, Haliburton, Ontario.

Bill Smiley

This week, I am perplexed by several questions, and I turn for possible answers to the only people in the world I can trust for honest answers: my faithful readers, all four of them.

For example, By what editorial inanity does the Globe and Mail, which grandly calls itself Canada's National Newspaper, run on its front page a five-column by eight inches photo of Pierre Trudeau getting his hair cut? What is the symbolism, the hidden meaning, the secret code, the deep, interpretive analysis, behind this picture? Can anyone help?

Is Mr. Trudeau symbolically trimming his sails for a fall election? Is it to show that the P.M. is mortal, after all, and that his hair grows, like that of us lesser beings? Perhaps it's a secret warning to Margaret that, despite talk of a reconciliation, he's not going to let his hair grow and become a flower child. I dunno, but it sure has me baffled.

Next question. Where do things get lost to? It seems to me that my wife and I have spent more time this past summer looking for things than we have sleeping. Looking for things that were "Right there, right on that counter yesterday."

Looking for things is one of the most frustrating, irritating pastimes in this materialistic society of ours. It has brought many a marriage to the teetering point, and if the union was already teetering, pushed it over the brink.

A couple of weeks ago, she lost the keys to the car. After a 12-hour non-stop search, no keys. Oh, we had keys for the other car, the battered old Dodge. Only one catch. It was in the garage, and the keyless car was sitting right behind it, immovable.

Twenty-four hours later, I called a lock-picking specialist. He was out of town, but would call me when he got back. Just before he did, and I had to fork out eleven-seventy dollars, the old lady found the keys, without looking. They were in the vegetable bin, with a turnip, a butternut squash, and a bag of cooking onions. It was certainly the logical place for them.

Then my new black \$10 belt went missing. It was the first belt I'd bought for 12 years, and I was rather proud of it. I knew it wasn't really lost, because I always hang it up with my ties. It was obvious that my wife, in her eternal tidying, had stuck it away somewhere, as she so often does with things that I then cannot find. But she swore, as she always does, that she hadn't touched it, mentioning in passing that she was sick and tired of looking for things that I had lost. Naturally, words followed, in which the phrase "car keys" inadvertently popped out several times.

But the mystery of the missing belt was readily solved when I decided to wear my new, blue, fit-like-a-glove summer trousers. I couldn't find them. High or low. Then with a flash of intuition, I knew where my belt was. It was with the pants, because I never unbelt, just hang the whole works on a hook.

It was quite a relief to know where my belt was. It was equally reassuring to know that the pants were with the belt. But it was slightly dampening to admit that both were lost. They still haven't turned up.

There are only two possibilities. One is that a pantsless burglar crept into our bedroom, snatched my trousers and crept off into the night, once more modestly attired. The second I don't even like to dwell on.

The last time I had worn those pants, that belt, was to a party. It wasn't a strip poker party, but it was a fairly lively one.

Did I do a strip tease and forget to redress my little pecadillo?

Did I tear them off on the way home from the party and throw them out the car window? Sounds silly, but the other morning I went out to get the morning paper, and there on my back walk was a pair of brand-new blue shoes, with thick white rubber soles, in a shoe-box, with only the lid missing. Only the Lord knows who, for what mad reason, in what temporary mental aberration, flung them there. But they are just my size and finders keepers.

And this whole probe brings up the Case of the Missing Socks. What in the name of all that is unholy becomes of socks when they are put through the washer and dryer? They never go missing in pairs, always singles. I'll bet I have nine single socks in my drawer, all different colors or knits.

They can't go down the drain, or it would be plugged. Do they do a reverse Santa Clause and go up the spout of the dryer with the hot air? It's a little frightening, as though someone were trying to tell me something. About my feet? Someone with a feet fetish?

Just one more question. Where were all the editorial writers who are now screaming about the stupidity of changing highway signs to kilometers instead of miles, when I was lambasting the whole metric-Celsius nonsense almost a year ago?

Can you, gentle reader, do a fast bit of arithmetic in your head when you encounter a road sign announcing the speed limit is 45 kilometres per hour? When your speedometer is marked in miles per hour? And will be for years to come?

Will you happily pay your fine when the cop puts the big blue arm on you and claims you were exceeding the speed limit by seven k.p.h.? Must we all start driving with a calculator-computer in one hand?

Now these questions may not be as important as some: How old is God? How hot is it in hell? How long is a straight line? How far does a rolling stone? Whither the Flat Earth Society? Why does everyone pick on me?

But they are, poor things, mine own, and I'd like some answers.

Creighton Feir is presently on vacation and his columns, Feir Play and Haliburton Highlights will return in a couple of weeks. This week Bill Smiley's column will take Creighton's place.

Pic of the Past

This picture was taken at the Miche & Diamond logging camp, north of Dorset on Hollow Lake, about 1921. Pictured here are Oliver Higgins (Haliburton), George Robinson (Gravenhurst), and Sylvester Barry (Maple Lake). Our thanks to Gordon Carr of R.R. 1, Haliburton for the picture.

As others see it

Dear Sir:

Our Reeve is to be commended for his initiative in calling a meeting on water levels and declaring our native rights. We learned that Peterborough and other municipalities along the Trent system are by far the chief users. One day Haliburton will have a water system, and being near the source of supply, will have the advantage.

A curfew might deter the wave of mischief we are currently experiencing. Also, local projects for betterment of all their perspective might improve. Required to clean up public places, parks, etc. would instill a desire for better living.

We sit in an area of hardwoods and while prime stands deteriorate, import wood fuels from Central U.S. for our barbecues. A chipper and a kiln would fill our needs. Material for furniture comes to mind. Selective harvesting and industry is needed along with related components.

G.C. Springer

Dear Editor:

As a parent, I know I am not alone when I ask why are there not enough textbooks in our public school for our children.

I know that the School Board provides funds each year for whatever books are needed. They have no way of knowing what is needed until they get the request from the teachers.

My daughter must again share some of her textbooks this year, another has pages missing and when homework is assigned, she must run up the street and share a textbook with a friend because there aren't enough books to go around.

This is a ridiculous and unnecessary situation. Are not textbooks a necessity? I ask you what are our schools priorities?

Thank you for letting me air a complaint.

Yours truly,

Louise Sisson

Dear Sir:

I have noted your story "100 people express views on the water levels of local lakes" in your September 21, 1977 edition, and wish to advise, I have been quoted incorrectly in the story.

The article reads "Jerry Strickland.....pointed out that in Long Lake one of the basins is presently down to 10 per cent and another is at 20 per cent of normal depth."

This should read, "Jerry Strickland.....pointed out that Long Lake consists of two basins, one of 30 feet in depth and one of 60 feet in depth. With the drawdown based on a storage depth of 6.5 feet (6 1/2 feet) the drawdown is therefore based on 20 per cent of the depth of one basin and 10 per cent of the other. This is considered ridiculous and we challenge the basis on which the drawdown was arrived at."

We trust this clarifies the item. Thank you,

Yours very truly,

J.G. Strickland, President,
Lake Miskwabi Cottagers' Assoc.

Dear Sir:

It is true that according to Parkinson's law that people rise to the level of their incompetence, then the Trent Valley Authorities that control our water are grossly overpaid and overclassified.

This was proven without a doubt at the meeting held in Haliburton Village, Sunday, Sept. 18, in which they claimed that low rainfall was the cause of our misfortune.

However, according to the weather authorities we have had more rain this month since 1962 and furthermore, 30 per cent more rain so far this month than in 1976, and the water is still receding.

The time has come to abolish the present department and put in representation from Haliburton County and Victoria County to keep our waters at a suitable level.

Yours truly,

Sid Say

Dear Sir:

"Bilingual Today, French Tomorrow," written by Lieutenant Commander CAF J.V. Andrews (retired) comes highly recommended by Doreen Stinson of Halls Lake. I'd like to add further comments.

Anyone who reads the newspaper and is even slightly interested in what is going on in 'Ottawa' will find themselves saying "how true" to almost every statement in the book. We have heard, or read it all before, but like a jigsaw puzzle, sometimes the pieces have to be put together to see the picture.

Mr. Trudeau's strategy is based on one fact: many, many French Canadian's speak English, but few English speaking Canadians speak French," unquote. It follows that any position labelled "bilingual" is usually filled by an English speaking French Canadian. So far they have done extremely well.

"Mr. Trudeau, by declaring this "a bilingual country" has pulled the biggest swindle that has ever been pulled in a civilized country," unquote.

"As of 1975 Mr. Trudeau has legislated total and permanent control at all levels of government of each of the following:

- The Canadian Government Public (Civil) Service.
- All Canadian Government owned corporations, commissions and agencies.
- The Canadian National Police Force (the R.C.M.P.)" unquote.

You can update all this by following events in the newspapers. Within the last few weeks a "French Canadian" replaced Donald MacDonald, our former Federal Finance Minister. This book has

Editor's Notebook

by Jim Badgley

The sun is shining bright on Haliburton County these days. Not in the sense that we might get a sun stroke but in the sense that development is getting more and more promising.

We hear many different stories about industry looking towards Haliburton as a suitable location. There is much promise of commercial growth in all areas of the county.

Haliburton is developing rapidly, more rapidly than most people will give it credit for.

Certainly we have our problems in the county. The water levels have scared off some tourists we are told. I doubt it there are that many tourists scared off, or at least that won't return when the water levels come back up.

This summer we didn't exactly luck out weather wise, but then neither did anyone else in Ontario. People still have to have vacations and most still vacation in Ontario.

There just was nothing that could be done about the weather. It appears that there was very little that could be done about the water levels either.

The water level problem someday will be solved.

At least that is what most of us with a little faith feel. The weather problem will always be with us. I can remember early in July a few people claiming the weather was too good and keeping the tourists out of town.

The weather changed to terrible in August and there were complaints that the people were kept right out of the county.

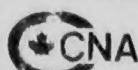

What some merchants want no doubt is for the sun to shine Friday, rain all day Saturday and then hope the tourists can get a little sunshine on Sunday before they head for home.

Back to the sewers. In Minden they are nearing completion. Or at least all of the contracts are out and people can expect to see results by next year.

In Haliburton where they were built backwards (the sewage plant before most of the sewer lines were installed) or frontwards compared to Minden, it shouldn't be much more than a year before we see the results.

The sewers will provide much more potential for development in all of the areas of the county.

Report from Queen's Park

BY MPP JOHN EAKINS

Based on a survey of 757 school systems enrolling about half the public elementary and secondary students in the U.S., vandalism in schools costs about \$600 million a year - more than was spent on textbooks in 1972, and sufficient to hire about 50,000 additional teachers. In addition to vandalism, students are venting their frustrations in more bizarre ways. Every year, there are some 70,000 serious physical assaults on teachers, and hundreds of thousands of assaults on students - an increase of 58 per cent in the period from 1970 to 1974. Sex offences were up 63 per cent, drug-related crimes 81 per cent and robbery 117 per cent.

Hopefully, the situation is not as serious in this country - yet. Nevertheless, there is considerable cause for concern, for vandalism is increasing, and rapidly. One of the most common, frustrating and puzzling of criminal activities, vandalism has occurred in every age, yet little is known about who does it, why it happens, and more importantly, how to stop it.

In Metro Toronto, in the first six months of this year, one third of one borough's budget to maintain bus shelters was used to pay for damage caused by vandalism; 25 per cent of another borough's roadside-planted trees are broken or stripped each year. Portable classrooms are burned, fire hydrants turned on, bicycle tires or chains thrown at hydro transformer stations, and countless windows are broken in schools or municipal buildings. In Metro, willful damage to municipal property which must be repaired or replaced by school boards and municipal councils - everything from picnic tables to parking meters - costs taxpayers more than \$2 million a year.

Sault Ste. Marie has a 33 member task force to investigate the problem of vandalism. A sub-committee on damage to educational establishments reports that replacement and repair costs the separate school board about \$13,000 a year out of a \$1.5 million plant services budget for its elementary schools.

In one three-month period, 111 acts of mindless destruction caused more than \$19,000 damage in Nepean Township. Police in the area maintain that statistics show only the tip of the iceberg, because much vandalism is never reported. Also less than 10 per cent of those responsible will ever be arrested.

One recent weekend spree by vandals, in Sarnia, cost an estimated \$20,000 damage.

In schools, the usual point of attack is windows - for example at Brennan High School, in Southwestern Ontario, nearly \$3,000 in glass was destroyed in the spring of this year. The Windsor Public School system puts a price tag of about \$40,000 a year on windows. For 1975 a total of \$160,000 was spent by both city school boards to repair vandalism - much of this as a result of deliberately set fires.

There is a line which sharply divides childish pranks and criminal vandalism. Unfortunately, it is a line not always visible to many people who get their kicks from destroying property, who find amusement in ransacking a school, damaging public buildings, or pushing over cemetery headstones.

People who are guilty of destroying property should be held accountable for their actions. That seems to be the approach taken by the courts recently. In sentencing some young men convicted of breaking and entering, in which there was vandalism, Essex County Court Judge Joseph McMahon put into words what is becoming a general feeling. He said that it was time the courts started being concerned about people affected by crime and spent less time being concerned about the 'poor accused.' A natural result of that kind of thinking could possibly be the requirement that vandals be made to compensate their victims.

That idea is, in fact, part of a resolution emanating from Wallaceburg and accepted by the Association of Municipalities of Ontario, which also calls for stiffer fines for those guilty of vandalism, with the possibility of jail sentences for repeated offenders. Wallaceburg's interest is obvious. The town paid \$32,000 for property insurance last year - up from \$26,000 the previous year - and the mayor attributes much of this increase to vandalism.

Prefinished Residential Steel Fence

by

WESTEEL-ROSCO

**Sit back and enjoy
your Leisure-Time!**

Your Leisure-Time fence provides big savings over other comparable fences. Fewer man hours are involved because Westeel-Rosco Limited has eliminated all the time-consuming steps of fastening, screwing or nailing and made alignment simple.

**You'll never worry about
your Leisure-Time Fence**

The solid, tough, hardened steel is Stelcolour finished with no less than 4 protective baked-on layers. That's why your Leisure-Time Fence will be maintenance free for many years.

Install it yourself and save!

Whether you consider wood or other prefabricated metal fencing, proper post alignment is critical. Once the concrete in the post holes sets, that's it. The specially designed Leisure-Time frame is easily assembled and set in position BEFORE you pour concrete. ONLY 4 bolts and 4 nuts are required for each section. Alignment is achieved BEFORE the concrete sets. After that, simply snap each panel into place... no cutting, no painting, no nails, no screws, no bolts.

County sports

BY JIM BADGLEY

Parents and guardians of minor hockey players in Haliburton will soon be receiving a letter from the association which points out some of the goals and work of the association.

Minor hockey is a very important part of the young life of a number of our children and the people involved in minor hockey have done their best and will continue to do their best for these youngsters.

The letter reads: "As the fall season approaches and the weather cools, our thoughts once again return to hockey. In recent years, hockey as a sport has come under great discussion as to the value of the role it plays in our children's lives.

"We, the members of the Haliburton Minor Hockey Association, feel that hockey is a valuable experience for boys to share in. It provides an opportunity for boys from all parts of our county to come together and share in an activity. Hockey provides an opportunity for boys to exert themselves physically and to increase their physical stamina. It is our desire that boys will learn the meaning of true sportsmanship, of winning and losing gracefully, and working as a productive member of a team.

Above all, we feel that hockey should be a fun and rewarding experience that will enrich each boy's personal growth. It is our goal as an executive, and I'm sure of parents also, to strive to accomplish this by providing ice time, coaches, managers, and a game schedule with other areas. To do all this we require the support of all parents, not just financially, but physically to be at the games to share in their child's excitement as he grows with hockey."

During the past few weeks I have been involved to an extent in minor hockey in the area and have learned a little bit about what the members of the executive go through.

A couple of weeks ago there was an early Sunday morning trip to Sunderland for an OMHA meeting. By early I mean 7 a.m. leaving time, which means, if you are smart enough, getting up at 6 a.m. and having a good breakfast because it will be closer to 1 p.m. before you get another chance to eat.

The surprise for me came when the car arrived to pick me up. There were four other fellows in the car, all wide awake, and all talking about the many early morning meetings they have attended on behalf of Haliburton's Minor Hockey players.

Even more of a surprise came when we arrived in Sunderland and found a room full of people from a number of towns and villages all set to go for the meeting.

Just last Saturday there was another meeting of the OMHA, the annual get-together in Toronto. Well it was another early wake-up time for everyone involved.

The people involved in minor hockey, in Haliburton, and by the looks of things, everywhere for that matter, have given up a great deal for minor hockey players. Part of what they have given up is a lot of sleep.

Cars take a beating at game

It was more like a Demolition Derby than a Firemen's Ballgame on Sunday the 25th, in Kilmount. Most everyone's car parked on the side of the field, now have very strange looking pockmarks. Doug Pearson hit his brother Pete's car. Frank Franzen hit John Barkwell's car as he was about to swing. Frank walked, and John moved his car to the laneway in the far outfield. But it was struck again, and John was seen weeping on the backscreen. Merv 'foul-ball' Preston, really took the prize when his ball hit Jack Philip's truck and did in the grill. It doesn't do much for Merv's job security when you hit the boss's

Ray Jenkins leads Wed. bowlers for 2 weeks

Ray Jenkins led the Wednesday Afternoon Bowling League last week with a high triple of 641.

Bill Barber had a 637, Harry Henderson 631 and Ev Stata 629.

Single games over 200 were rolled by Linda Morrison 202, 215, Ray Jenkins 209, 201 and 231, Ev Stata 211, 244, Jack Henderson 238, Fran Woods 204, Bill Barber 235, 216, Harry Henderson 227, 213, Shirley Hamilton 203, 201, Gord Bennett 209 and Millie Beatty 228.

Leading the league are the Rebels with 17 points. Aces have 12, Harry's Angels and the Criers have 11. Snowflakes have eight and Hit and Mrs. have 4.

Two weeks ago in Wednesday afternoon action Ray Jenkins led the way with an 816 triple.

Linda Morrison had 682, Ev Stata 617 and Gord Bennett 603.

Single games over 200 were rolled by Linda Morrison 218, 214 and 250, Ray Jenkins 296, 223 and 297, Ev Stata 258, Audrey Barber 217, Laura Fagan 206, Marie Jenkins 226, Fred Brittan 256, Bill Barber 203, 219, Harry Henderson 206, Gord Bennett 209, 205 and Betty Bennett 241.

truck. Merv Preston, not Pearson as appeared erroneously in our first article has been adopted by Doug and Peter Pearson. They now call him "Uncle Merv." You could see Merv was getting a little rattled by all this, and took it out on Guy Scott, whom he wounded when he was up to bat.

I guess it was the cold and rainy weather that kept many of the regular players away, and as a result we had some new faces on the teams. Dan and young Reg Crego played for Somerville. John Angus, who can run like the dickens, Gary McKay, and Ken Cooper who runs like the dickens into cars retrieving foul balls, played for Galway. Galway's Luther Crego, made a nice catch off Terry 'orange sneakers' Hartin. Ken Cooper hit a beautiful triple and got to third, when "Eagle-eye" Harry Stuart, first base ump, called him out for skipping, leaping or hopping over second base. The fact is, he never touched the base or sack.

Speaking of umps, Percy Sherman was missing from the porch and so was Leon Wright. Garland Barkwell had no one to sit with, so he took on umping this game, nice to have him back. The nursery was hard-pressed, as none of the directors showed up. But this didn't stop the Franzen's twins, who came without mother and stayed with Shirley Preston. The twins helped Shirley and June McKay, with her kiddies, cheer Galway on. Not to be outdone, Kathleen Hartin and the other Shirley cheered Somerville.

At the end of the third inning, Somerville had 8 and Galway had 4. Galway pulled their act together in a hurry by adding 10 runs in the fourth. Somerville put the same act together and added 8 runs in the fourth. Now this fourth inning was the most action filled. If Ida Young had been there pushing the pop, I would have wondered what extras she had added. But the team was dry of pop and energy after the fourth, and could only muster one or two runs in any of the following innings. Somerville took the game 21-20, without running into overtime.

COUNTY ECHO SPORTS

Redmen get first win with shutout over Fenelon Falls

Haliburton - The Haliburton Highlands Secondary School Redmen came up with a last minute goal line stand to shutout Fenelon Falls 3-0 in a football game played last Thursday in Fenelon Falls.

With the minute flag up, Fenelon Falls had the ball first down on the Haliburton nine yard line but were stopped three times in a row including a big third down tackle by Brian Shaw on the

two yard line.

Haliburton got a big effort from the defensive team for the entire game scoring all three of their points while Fenelon Falls had the ball.

Ed Roberts took down the Fenelon Falls punter in Fenelon's end for a single point and a gang tackle later by the defensive team resulted in a safety touch for two more points.

Defensively Haliburton got

big efforts from a number of players. Shaw sacked the Fenelon Falls quarterback three times during the game.

Kevin Finch, the defensive halfback for the club, knocked down three passes and intercepted one.

Coach, Gary Brohman said that the defensive team got "good sound efforts" from Dave Brown, Ed Roberts, Jim McCracken, Ron Yake, Dan

Allison, Brent Collier, Rod Consack and Roger Hicks as well.

Offensively Haliburton had a big game everywhere but inside the Fenelon Falls' 10 yard line.

The team had the ball inside the 10 yard line four times and went for the third down and failed each time.

Coach Brohman admitted that the club would have to

work on its third down efforts a little more.

The outstanding offensive player of the game was Larry Stinson who carried the ball 37 times for 202 yards. Steve Davies had a big game grinding out 74 yards on 18 carries through the inside.

Tim Davies, a grade 10 student at the school, started his first game as quarterback with the team and coach Brohman said he is happy with the effort pointing out that Davies did an "excellent job" considering an obvious size difference for the Fenelon players.

Haliburton now has a win and a tie on the season and coach Brohman said that they are the most enthusiastic bunch of boys he has ever coached.

"With the composure and heart that they showed in the game against Fenelon Falls, I am looking forward to a winning season," he said.

He pointed out that one of Haliburton's major strengths is in its bench with 37 dressing for the Fenelon Falls game. He pointed out that the team will need the bench support if it is going to have a good season.

The next home game for Haliburton will be Oct. 13 when I.E. Weldon of Lindsay comes to town. Starting time of the game is 2 p.m.

There will be an exhibition game in Fenelon Falls on October 7 for juniors and first year players.

The Haliburton Highlands Secondary School Redmen travelled to Fenelon Falls last week and came back with the team's first win of the season. The club came

up with a big defensive effort to down Fenelon 3-0. Offensively, Haliburton was sharp everywhere but just couldn't score a major.

The Haliburton Highlands Secondary School Redmen are undefeated after the club's first two games and one of the reasons is the fine play of the veterans. Jim Thompson, offensive guard is in his fifth season and is the co-captain. Larry Stinson has three years experience and is the leading running back on the club. Bart Barnes is in his third year with the team and goes both ways, as middle guard and offensive tackle.

New instructor heads the Sir Sam's School

Haliburton - Nick Lehoczy a member of Ski Instructors' Alliance for the past 15 years, has joined Sir Sam's Inn and

Ski Resort as head of the ski school.

Mr. Lehoczy comes to Sir Sam's from Peterborough

where he was a part owner in Cedar Mountain last year.

He pointed out that Sir Sam's, along with its regular skiing instructions will provide a number of new services this year.

Mr. Lehoczy said that they will be providing instruction for school groups.

The school group package will offer both alpine and cross country skiing.

He also noted that there will be a junior program starting this season for a seven week session. He pointed out that the instructions for juniors will start in January.

Another new program this year at Sir Sam's will be the Ladies Day every Wednesday with instructions for the ladies free.

Mr. Lehoczy said that to facilitate the larger teaching program Sir Sam's will have 300 pairs of skis to rent. He noted that when you rent downhill equipment on the weekends you will also get some free instruction.

On Oct. 29 and 30 there will be a two day open course at Sir Sam's with everyone invited for free coffee and donuts.

He pointed out that the limited memberships can be purchased during those two days. Mr. Lehoczy added that there will be a ski swap with the profit going to the ski patrol system.

Sir Sam's will also be expanding its cross country facilities by grooming trails and offering a large supply of cross country ski equipment to rent.

Nick Lehoczy is the new ski school instructor at Sir Sam's Inn. Mr. Lehoczy has been a member of the Ski Instructors' Alliance for the past 15 years.

Minor Hockey members attend annual meeting

Haliburton - Four members of the Haliburton Minor Hockey Association executive travelled to Toronto Saturday to attend the Annual Ontario Minor Hockey Association meeting.

The meeting, which was attended by Len Salvatori, Roy Scott, Bill Davis and Jim Badgley was held at the Royal York Hotel.

The day long session included elections for the executive committee. Among those elected to the executive committee was Ed Grimshaw of Stouffville.

A number of rules were discussed and changes voted on by the people at the meeting.

A motion to amend rules to allow areas to set up boundaries was defeated at the meeting. Those in attendance at the meeting agreed that any

player, including goalkeepers who are assessed a major penalty for cross checking, fighting, high sticking, hooking or slashing would be assessed in addition with a game misconduct penalty an automatic minor penalty, which means the team is short handed for seven minutes.

A motion to ensure that any player who is playing Junior D hockey on a minor certificate must have played in a minimum of 50 per cent of the games played by his minor team after he has signed with the minor team to be eligible for OMHA playoffs.

The group also agreed to have the OMHA executive directed to explore the feasibility of establishing a new category above juvenile to be added to the OMHA to be effective in the 1978 to 1979 season.

Strikers, Loafers take seven each

The Strikers outstruck Dan's Dynamos and Lynn's Loafers faded Fred's Foxes for 7 points each. Ron's Rollers took five off Audrey's Angels.

Wes Stata showed some of his old form with a nice 775 (275, 250); Marnie Robinson started off right with 702 (276, 218); Ab Cox 641 (246, 231); Dan Harding 627 (215, 209); Bill Barber 612 (215, 211); Ron Robinson 611 (241, 211). Singles: Harry Foun-

tain 239; Ev Stata 217; Rick Harding 215; Walt Ackersblade 208; Helen Ackerman 200.

Team standings: Strikers 19; Loafers 14; Dynamo's 12; Rollers 9; Foxes 5 and Angels 4 points.

Sign up now for the Mr. & Mrs. 1000 Lakes Tournament. Roll-off October 16. Also, Ron Robinson has entry forms for the Carling O'Keefe Open.

Along the Trails

BY ROY BATES

In nature the Spring of the year is mating season. In the snowmobiling fraternity the Fall of the year is mating season. And this might be loosely construed as the mating season for numerous organizations to come together to meet and pursue their conforming objectives. The objectives of snowmobilers are much the same whether they be in Nova Scotia, British Columbia, the northern States or here in Ontario. The majority of meetings at this time of year will follow a similar theme - how to improve recreational snowmobiling for greater family pleasure and the enjoyment of winter.

There are now a number of very worthy snowmobiler organizations co-operating to help the snowmobiler meet that basic need. Each organization plays its own unique and very effective part, from the application of pressure on

municipal authorities to the correlation of recreational policies of federal jurisdiction.

Here's an example of how it works. The local snowmobiler may join a club - let us say the Paudash Trail Blazers - with the full assurance that his club's officers will intervene for him in all problems which might crop up in the community. These may include fighting to retain the use of concession lines, parks and roadways, and permission to develop and maintain new routes for his pleasure on private lands. The regional association, the Haliburton County Snowmobile Association is an example, is in a better position to apply pressure at county level as well as develop and administer long range programs. A good regional association will develop a harmonious working arrangement with the business community, the county

council, tourist associations and all clubs in the area. On the next rung of the ladder is found the provincial association. In this case the Ontario Federation of Snowmobile Clubs, with direct lines of communication established into the appropriate Ministries and departments of the legislature, along with flow constantly the special concerns of the snowmobilers of the province. The Canadian Council of Snowmobile Organizations is made up of the provincial associations and/or federations, and is the melting pot for all common concerns. South of the border, the United States Snowmobile Association performs a similar service for state associations and our two countries are tied together by the International Snowmobile Industry Association.

From these latter groups have come the many research projects which have successfully refuted the majority of claims against the snowmobiler of excessive noise, environmental pollution, damage to wildlife and so on. And good publicity generated at every level has turned the tide of the public's misconception of the snowmobiling fraternity.

With this much representation going for him, it is

virtually inconceivable that any snowmobiler in North America would still persist in going it alone! Yet many do. The latest estimates available indicate that more than half of all snowmobilers here in Ontario are not members of any club or other recognized organization for snowmobilers. "So, we might say, they are hurting no one but themselves." We might say that, but it would not be true.

Undoubtedly the most important concern of snowmobiler organizations above club level is the safety factor.

We look at accident statistics every Spring and the pattern is abundantly clear. Snowmobilers in clubs have maintained an excellent safety record. In fact, among those clubs aligned with the Ontario Federation, there have been no fatalities in the ten years of the federation's existence. Among all other Ontario clubs there have been a very few. Figures compiled from actual accident reports tell us that the loner is doubly prone to be involved in an accident, and many times

more likely to meet his demise, than the snowmobiler in a club. Somehow, obviously, the snowmobile club manages to instill a good measure of common sense and awareness of danger into its members. Strangely enough, this happens in many clubs without a conscious effort to teach safety. Educators might call it learning by association.

How do accident statistics from non-club snowmobilers hurt their counterparts in the club? Here's how. Spokesmen for the Ontario Provincial Police have stated positively that, by far, the majority of charges under the Motorized Snow Vehicles Act and investigations of trespass and other civil offenses, have resulted from the irresponsible actions of non-club riders. In the non-selective eye of the general public, such actions reflect on the entire fraternity. The farmer's sheep may have been devoured by just one wolf but the whole pack is suspect. If one snowmobiler hangs himself on a wire fence, then all snowmobilers are a menace to life and limb.

In striving to improve recreational snowmobiling, every snowmobiler organization in North America, from the smallest club on up is actually conscious of the need for expanded membership. We need to reach those loners. We must reach them if we are to reduce those accident statistics. And we need their numbers if we are to properly represent all snowmobilers in our many dealings with Government.

Manpower program to help youth

Manpower and Immigration is launching a new program to apprentice more unemployed youth.

Incentives will be given to potential employers to take on more apprentices particularly in the mechanical and body repair trades by November 1. Manpower will pay the employer 75 per cent of the apprentice's wages for 30 weeks regardless of the length of the apprenticeship.

The apprentices cannot take the place of any apprentice the company would normally take on and cannot take the place of full-time staff.

Would-be apprentices are

Haliburton Cubs and Scouts start meetings

Haliburton - The Haliburton Cubs and Scouts have started meeting again this year.

Approximately 25 Cubs and 20 Scouts have registered.

Any boys wishing to join the Cubs should contact Len Salvatori or Terry Barnum. Boys wanting to join the Scouts should call Ed White-way.

This weekend will be Apple Day with the Cubs and Scouts out Friday night and all day Saturday.

This is the main money raising function of the year for the group.

Whatever your money problem

Whatever you need in money service - a loan, a mortgage, high interest savings, estate executorship, personal estate management - bring your problem to specialists who keep up to date on swiftly changing financial problems. In all money matters look to Victoria and Grey - for four generations the preferred "home based" financial house.

Bowling association explained to competitors

Editor's Note: This article was written by a bowler at Carnarvon Lanes.

Since the formation of the 1000 Lakes Bowling Association, there has not been a proper explanation to bowlers as to "Why this is a Good Thing."

Therefore, this article wishes to clarify the need for this Association.

The Ontario Bowling Congress is a central governing body in Toronto, which sets rules and regulations that all local presidents, secretaries and treasurers can follow in

setting up fair bowling leagues throughout Ontario. This means that several different formats are offered and each league executive can choose which one they will adopt for their league.

Also, that foul lines and clearing of pins are enforced, and that each bowling centre across Ontario is kept up to certain standards.

The Ontario Bowling Congress promotes bowling in general for people of all ages, starting with the young children right through to the senior citizens. They have

succeeded in having bowling recognized as a sport and therefore bowling was included in the Canadian Winter Games held last year in North Bay.

The O.B.C. do not themselves sponsor bowling, but they promote bowling by attaining sponsors such as Carling & O'Keefe Breweries, Adams Distillers, Sunbeam Shoes, etc. to pay expenses to tournaments and competitions organized by the O.B.C.

Our local 1000 Lakes Bowling Association is a branch of this organization which includes Carnarvon, Fenelon Falls and Bancroft. The executive is made up from volunteers from each of the three areas. For this association to function properly we need a combined membership of 1000 people.

The Membership Fee is \$2.00 of which \$1.00 remains in the Carnarvon Branch. This amount is very small and does not meet all expenses, therefore bowlathons, sale of tickets, dances, etc. are held to raise necessary funds for additional expenses.

The local funds meet expenses for secretarial supplies for each league, the crest and glass program, postage, etc. incurred by the executive during the year. Also, bowling shirts were purchased for the Youth Bowlers when the group was formed, and expenses paid for bowlers competing in tournaments throughout Ont.

Well then, the question that comes up most frequently is "why should I join this organization, if I do not intend to enter into competition?"

To the benefit of everyone, since this association was formed, our local bowling centre must be kept up to the O.B.C. standards. This has caused a great expense to the Everall's in order to meet these requirements. Again this insures us that we have our local bowling centre in every bit as good a condition as other centres in Ontario. This is why it is not fair for some to buy their membership cards and others do not, since we all benefit from improvements that had to be made. And to keep the lanes in good condition, we must all observe the foul lines and clearing of pins which is one important rule of bowling.

I am sure everyone appreciates the improved conditions at Carnarvon Lanes, so come on out and have a good time.

MANUFACTURER'S WARRANTY

No extra-charge 36-month, unlimited distance warranty against rust perforation on 1978 model cars.

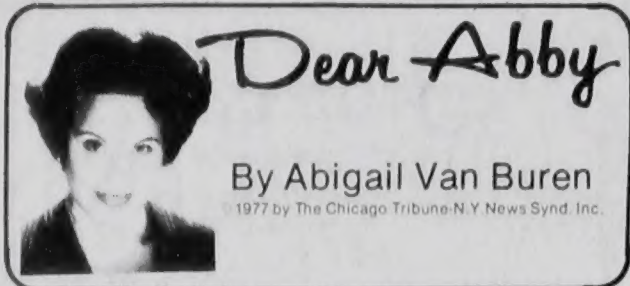

This Ford of Canada warranty is transferable to succeeding owners and covers the repair or replacement of any part, except exhaust system components, which develops perforation from corrosion within the first three years of normal use. The basic 12 month 20,000 km warranty covers rust, other than perforations that are due to defective factory materials or workmanship. Ford and Mercury dealers have full details.

Be sure to watch Loto Canada Sun, Oct. 9, on the CTV Network and the Anne Murray Super Special Mon, Oct. 10, on the CBC Network.

Certain items illustrated are optional at additional cost.

Dear Abby

By Abigail Van Buren
© 1977 by The Chicago Tribune-N.Y. News Synd. Inc.

DEAR READERS: This is Fire Prevention Week, and I received so much positive response to the column I published last year at this time, I decided to repeat it. Last year approximately 12,000 Americans perished and 300,000 were seriously injured in nearly three million fires. And in Canada, there were nearly 900 deaths caused by approximately 79,000 fires.

A large percentage of those who died were children, elderly persons and invalids who had been left alone "for just a few minutes."

The chief causes of fires, in order of the toll taken, were:

1. Smoking
2. Electrical wiring
3. Heating and cooking equipment
4. Children playing with matches
5. Open flames and sparks
6. Flammable liquids
7. Suspected arson
8. Chimneys and flues
9. Lighting
10. Spontaneous ignition.

The total loss due to fire last year was an estimated \$3,001,000,000 in the U.S.A. and \$254 million in Canada. Now for some tips that could save your life:

—Be sure your cigarette is out. Matches, too. And never leave matches and lighters within the reach of children.
—Don't run cords under rugs or over radiators where they may get damaged. And replace a cord if it is frayed.
—Never leave small children alone in the house. Not even for a few minutes.

—Have your wiring and electrical installations done by a professional.

—Store oily rags and paints in a cool place in tightly sealed metal containers.

—Never use flammable liquids for drycleaning indoors.

—Never smoke in bed.

—Have a fire drill in your home to be sure everyone knows what to do in case of fire. Designate a specific meeting place outside, so you will all know who's outside of the house.

Remember: Fire extinguishers put out 97 percent of all fires on which they were used, and most large fires start as small fires. So, invest in a compact, easy-to-use fire extinguisher and keep it handy in your kitchen, or be a sport and buy one for your cottage, car, boat and the back bedroom.

More recently, some excellent fire-detection systems have become available to homeowners. Ask your local fire marshal about them.

NOW, in case of fire:

If you suspect fire, feel the top of the door. If it's hot, don't open it. Escape through the window. But first alert the rest of the household.

If you can't open the window, break it with a chair. Cover the rough edges with a blanket, sit on the window ledge with one leg hanging outside and one inside, and wait for help.

The phone number of your fire department should be taped on every telephone. If it isn't, don't fumble around trying to find it. Get out and call from a neighbor's house.

If you live in an apartment building, use the stairway. Don't take a chance on the elevator. If it fails, you're trapped.

Once out, stay out. No treasure—not even the family pet—is worth risking a human life.

It took less than three minutes to read this column. Was it worth it? I hope so. God bless. Have a good day!

COUNTY ECHO FAMILY

Tom and Stella Stinson are honored on 50th anniversary

Relatives of Tom and Stella Stinson gathered at the couple's 50th Wedding Anniversary, Saturday night. Mr. Stinson's family is one of the oldest and best known in the Haliburton County area, operating a mill on the Gull River.

Minden - Tom and Stella Stinson were honored last Saturday night when friends and relatives held a 50th wedding anniversary party in their honor at Kenmar Lodge.

About 40 people attended the dinner and were joined by another 40 people later for the party and a buffet in the evening.

Guests attended from many areas of Ontario including Willowdale and Ottawa. The Stinson's family, a son and daughter and five grandchildren, were all in attendance at the party.

The highlight of the evening was when presentations were made in a "This is Your Life" manner and then a speech was given by Mr. Stinson.

A plaque, in honor of the occasion, was received from the Premier of Ontario, Wm. Davis.

Congratulatory letters had been received from Pauline McGibbon, Lt. Gov. of Ontario, Pierre Trudeau, the Prime Minister of Canada; John Ekins, MPP Victoria-Haliburton; Bill Scott, MPP Victoria-Haliburton and Joe Clark, the leader of the opposition.

Mr. Stinson was born in Minden and lived here until he was 11-years-old. In his retirement he has moved back to the area.

Mr. Stinson's father ran the livery stable and his family is well known for operating Stinson's Mill and it is on the site of the power mill on the Gull River.

Mrs. Stinson was born in Blackpool, England.

Annual teachers meeting

The Annual Meeting of District 18 Superannuated Teachers of Ontario was held at The Rockhaven Hotel, Peterborough, on Sept. 28.

District 18 is comprised of the counties of Peterborough, Victoria and Haliburton. About 150 superannuated teachers, from the district, attended the business meeting and the luncheon.

The president, Mrs. Harvey Wilson, of Peterborough, outlined the achievements of S.T.O. The highlights were the representations to the Ontario Government resulting in adjustments to the superannuation payments which reflect the changes in cost-of-living; the health program through the Co-operative Health Organization; and the travel plans designed for retired teachers. At present a dental insurance program is in the planning process.

Each unit gave a report of the activities carried out during the year. Mr. Harold Morgan of Minden, speaking for the Haliburton unit, noted that there were only 71 per cent of the retired teachers in the county who were active members, although all receive the benefits of the organization's accomplishments.

An election of officers was held with Mrs. Gala Heal of Minden being elected the President of District 18. Mrs. Heal is also president of the Haliburton unit. Mr. Robertson Herlihey, also of Minden, was elected the secretary-treasurer of the district.

The speakers at the meeting were Mr. Dave Dewar, the Provincial President of S.T.O. and Mr. Eugene Dobie, a retired teacher, who is active on the Education Committee of the Canadian Institute of Religion and Gerontology. His topic was: "A revolt of old age could change the entire structure of our society."

The next annual meeting will be held in The Haliburton Highlands.

Sewers

From page 1

35 was the next problem to solve along with the sewers. Reeve Booth said that it required a meeting of a number of government bodies to get it ironed out when the widening work would be done.

He pointed out that there was no need in having the Highway 35 bypass around Minden improved and then come along later and tear it up to put the sewers in.

Approvals for the sewers were all finalized in 1976 and the project got underway in March of 1977.

Reeve Booth pointed out now that the lines are all in and most of the paving would have been done if the weather had been better over the past couple of weeks.

Mr. & Mrs. Tom Stinson celebrated their 50th Wedding Anniversary Oct. 1. About 40 people attended the supper at Kenmar Lodge and were joined by another 40 people for the party for an after supper celebration.

Paul Heffer, of Minden, a well known area businessman, was married recently to Janet Malott of Kingsville. The couple was married September 17 in Kingsville. They will reside in Minden.

Patricia Morrow and Richard Wood, both of Haliburton were married Sept. 17 at Haliburton United Church. The bride is the daughter of Mr. and Mrs. R.J. Morrow and the groom is the son of Mr. and Mrs. Gerald Wood. Rev. Don Nicholson officiated at the ceremony.

Rotary information is theme of meeting

"Rotary Information" will be the subject of an address to the Rotary Club of Haliburton, by Cliff Gervais, Governor of the Rotary District.

Mr. Gervais, of Noranda, P.Q., will also confer with David Gray, President of the local club, and other officials to obtain information on the group's planned service activities for this year.

He will offer suggestions on Rotary administrative matters to the Haliburton Rotary Club, one of 36 clubs in the district.

Mr. Gervais is one of 368 Rotary Governors throughout the world who are representatives of Rotary International in districts composed of member clubs. Each district leader supervises the clubs in his area.

Rotary, an international men's service organization, has more than three-quarters-of-a-million members in 17,000 clubs throughout the world.

A member of the Rotary Club of Rouyn-Noranda, Mr. Cliff Gervais is semi-retired. He was elected to office at the Rotary International convention in San Francisco, California, in June, 1977 and will serve until June 30, 1978.

Freezing Sandwiches

Does the morning rush leave you with a tasteless sandwich at lunch? Why not prepare the week's supply ahead and freeze them.

Fillings made of meat, poultry, fish, cheese or nuts freeze well. Some ingredients are unsuitable for freezing in sandwiches. These include eggs, which become tough and dry; lettuce, celery, tomatoes, cucumber and watercress, which lose crispness; fruit jelly, which tends to soak into the bread during thawing; and oil dressing, which may separate during freezing.

Sandwiches may be frozen individually, or a number with the same kind of filling may be packed together. Keep packages small to prevent uneven thawing.

Heavy wax paper will keep sandwiches well for a week or two, but for longer storage use plastic bags. Individual sandwiches for lunches, removed before leaving, will be thawed by lunchtime.

To avoid soggy bread in frozen sandwiches, butter bread generously so the filling cannot soak into the bread.

MRS. GREEN IS AVAILABLE TO TALK SHOPPING TO GROUPS. PLEASE CALL (416) 697-1020, OR WRITE: MARIE-PAULE GREEN, IGA CANADA LTD., 790 BAY ST., TORONTO, ONTARIO M5G 1P1.

Norland Notebook

By Barbara Maunder
454-3233

The many friends of a long time Digby Township resident, Mrs. D. O'Connor, the former Annie Fitzgerald, might be interested to know that Mrs. O'Connor has just recently returned home after being in the hospital. Unfortunately, she is not well enough to stay alone and will be going to live with her daughter. I'm sure that letters or cards sent to her former address - 72 Adelaide St. S., Lindsay, would be forwarded by the Post Office.

Mrs. Greta Smith, owner of Kenata Grill arrived home this week after two weeks' holiday with her brother and family in Mattawa. Greta's two sisters, Mrs. A. White-side and Mrs. B. Rowlandson of North Bay, returned with her and are enjoying a visit in Norland. Tentatively, the Kenata Grill will be open weekends only - Friday afternoon to Sunday evening.

On Wednesday, October 12, there will be a Norland Home and School meeting from 7:00 to 9:30 p.m. at the Public School. The meeting is open to all with or without school age children and the teachers will inform the community of the ways of learning and the other activities of the student in school. Plan to attend "Curriculum Night" to learn more of our educational system as it is today. Home and School membership is \$2.00 per family.

All Laxton, Digby and Longford Township residents please note that as of October 1 to April 30, the Waste Disposal Site will be open Sundays and Thursdays 12:00 noon to 6:00 p.m. only for the dumping of waste materials.

Eight of our township volunteer firemen - Jim Boyce, Harvey Greer, John LeCraw, Vern LeCraw, John Maunder, Fred Patullo, Gerry Quinn and Mickey Vanier, attended the area Mutual Aid Meeting held in Dalrymple on Tuesday, September 27. Following the meeting, some of the firemen visited the Cardin Township fire hall nearby and viewed the 1954 local fire truck that was formerly owned and used at Camp Borden by the Armed Forces. This truck is unique because it is made of quarter inch steel, of much superior quality than the steel used in some trucks before 1954 and any trucks since then, and no sign as yet of any rusting or breaks in the metal. A disadvantage is the fact that the vehicle is extremely heavy and, of course, gets poor gas mileage.

Saturday, October 8, will be the last day for the Norland U.C.W. Opportunity Shop to be open this year. To mark the occasion everything in the shop will be on sale at half price. There is still a good selection of fall and warm winter clothing and boots as well as a variety of household articles. On our final day last year, it snowed so we will hope for better weather this year. Hours are 1:00 to 4:00 p.m. and location is east side of Hwy. 35, just south of Hwy. 503.

Everyone who likes to play cards, keep in mind, on Monday, October 17, Weekly Card Party will commence at 8:00 p.m. in Norland Community Hall. All card players are invited to attend and spend an evening with neighbors and friends. There will be a small admission charge and refreshments will be served.

Last winter, while driving near Virginia on Hwy. 48, my husband and I had the misfortune to have our truck struck by a man in a car making an unsafe left-hand turn. Some damage was done to both vehicles but luckily, no one was injured. This summer, since the man contested the charge laid against him by the police, we were subpoenaed to appear in Magistrate's Court, in Richmond Hill, as witnesses. This was an experience that neither of us had undergone before and although nervous, the procedures were enlightening and interesting. The Magistrate ruled that the accused was guilty, after hearing the evidence, and he was fined and we were then allowed to leave. Attending this court required the better part of a day for the two of us to be away from our place of business and to travel about 180 miles. A month later, we received our compensation from the court - \$6.00 for me and \$37.50 for my husband - his \$6.00 plus mileage. Certainly not a very large sum for one's time and effort and I would think, one reason why so many people will not offer their services as witnesses in accident cases.

This weekend is Thanksgiving, our last holiday before Christmas and I hope that it is a happy and pleasant one for all each year. We have noticed that this weekend the traffic is some of the heaviest of the holiday months so do be careful when driving. It is a sad time in some ways because Thanksgiving marks the final end of the summer season and so many cottagers close their places and do not return until next spring. To all of them, have a warm and safe winter and we look forward to seeing you again next year.

At this Thanksgiving time, let our hearts remember to thank God for eternal values - "The things up there."

Mrs. Ken Richards (Cora Wright) of Lindsay, has been recuperating after hospitalization in Ross Memorial Hospital, with her cousin, Isabelle Gibbs, and her uncle, Oscar Sisson.

Mrs. Jim Martin of Lakefield has been spending some time with her aunt, Mrs. Winnifred Johnson.

Just a reminder about St. Peter's Annual Turkey Dinner, Sat., Oct. 8 in the church basement. Tickets go on sale at 2 p.m. for the various settings. If you plan to have one of your good dinners, better be in line before 2 p.m. so as not to be disappointed. Tickets for all settings are usually sold out by 2:30 p.m. We'd be happy to serve you.

Under the direction of Anglican Church Women all the parishes in the Counties of Haliburton and Victoria were invited to attend a general meeting at St. Paul's Church, Lindsay, Wed., September 28, 8 p.m.

The purpose of this get-together was to meet the Rev. George Daley & Mrs. Daley, and to hear of their missionary work in the Moosonee district. Their information was well illustrated by a showing of slides which were excellent. Mrs. Daley also had a fine showing of native handicrafts, which unfortunately were not for sale as they were her personal property. When roll call by

parishes was taken, St. Peter's was well represented by seven people being present.

Mr. Oscar Sisson has been successful in getting a good flow of water after the drillers went down to a depth of 125 ft.

Mr. Stan Upton has been working on the private subdivision road on the south shore of Maple Lake. The weather has done its best to prevent him from completing a good road surface as yet. Let's hope for better weather in order that he may get this much needed work completed soon.

Agricultural events in the area

Thurs., Oct. 6, 8 p.m. - Victoria County Milk Committee will meet in the Committee Room of Agricultural Office, Lindsay.

Tues., Oct. 11, 7:30 p.m. - 3rd Kawartha Classic Consignment Sale in Judging Coliseum, Exhibition Grounds, Peterborough.

Wed., Oct. 12, 9:30 p.m. - 36th East Central Ontario Holstein Championship Show in Memorial Center, Peterborough. Judge - Ray Brubacher, from Guelph.

News of the district in The County Echo

Coboconk News by Sheila Lake

To those who would like to learn a new craft and do something creative, Jean Barkwell and daughter Cathy are looking for interested persons to meet with them for the winter months. Sometime after the first of November, perhaps an afternoon or evening session is planned to teach a new craft, etc. Jean thought perhaps if you would be interested in learning how to knit, crochet, or quilt, learn about makeup or hair care, or perhaps paint, a class would be held for that particular thing. She, or Cathy would like to talk to you about it. Meetings would be held at the rear of the Short Stop store or at Jeans home. Contact Jean Barkwell at 454-8961 or Cathy Stewart at 454-3424. The ladies would like to discuss these projects with you so come on, give it a lot of thought and any ideas

you have to one of the ladies. The Ladies Auxiliary to the Legion are unable to have their Thanksgiving turkey dinner since they are busy catering to two weddings in October. They trust you are not disappointed and perhaps next year they will consider a Thanksgiving dinner.

Mr. Gibson informs me they have in stock, at the Gibson Girl Dress Shop, invisible pens. These pens sell for around \$3. and are a real good way to mark your valuable items. You can keep track of the location of your identification yourself and that identity is not known or visible to anyone but you. Think of valuable leather or fur coats, diamonds, silverware, or maybe a valuable colored T.V. All these items are often stolen by robbers and if you should become the

victim of a thief, then that invisible marking will help the police a whole lot. Drop in and learn about the possibilities of this pen.

Elmer Bowins is lucky to be alive. On Wednesday, the car he was driving, near the Glenarm Road cutoff, was wrecked when a big earth mover came off the Glenarm Road, right onto Hwy. 35 and struck Elmer. I'm sure he must have nightmares of that big machine bearing down on him!

Congratulations to Mr. & Mrs. Rafter who are celebrating their 52nd anniversary on Tuesday. They used to run the little store at Davis Lake and live near the causeway out Kirkfield way. Don't know if they get the Echo or not, but if they don't, they are missing a lot of good reading!

Sincere sympathy goes out to Cheryl Angiers and Paul. Cheryl's dad, Gordon Lambier, of Essex, passed away very suddenly a week ago and Cheryl and Paul spent the week at Essex with other members of the family.

Linda and Wayne Dyck and children, of Oshawa; Jerry Summerfeldt and Linda Bowin, of Toronto; Brian and Deb Summerfeldt, of Oshawa; and Gord Summerfeldt and Jackie

Fox, of Lindsay, all were weekend visitors of June & Murray Summerfeldt.

The Senior Citizens enjoyed, if you can enjoy a very wet trip, to Haliburton, Algonquin Park and Gravenhurst areas on Wednesday, to enjoy the fall colors. The trip was to be a "picnic" trip but what a day for a picnic! Oh well, knowing these folks I'm sure they did have an enjoyable time sightseeing and visiting and making the best of a bad situation!

Last Sunday the Choral Group of On The Move Club, New Horizons, sang at the Presbyterian Church at Sutton. It was the churches 50th anniversary and the church was beautifully decorated with flowers, etc. and the Club were served lunch. A most enjoyable Sunday! Last week for the third year, the Choral Group sang at the Lindsay Fair.

Last Tuesday, yours truly and mother, Mrs. Marles, were visitors of Mr. & Mrs. Rod Harrison and family and Mr. & Mrs. Bill Goode and boys, at Queensville, and Mr. & Mrs. Ken Blunt at Sharon. Mrs. Nesbitt spent a few days with her son, Mr. & Mrs. Ed Nesbitt, at Newcastle.

Someone must have very strong muscles to be able to destroy the heavy bench at the north side of the Bank of Commerce. The bench has cement ends and a thick plank seat, yet it lays smashed in a number of pieces. It has sat there for some years, a supposedly indestructible bench, but as last, it too has met a sad end. I guess perhaps I belong in the "old" generation. We were taught

to cherish and respect other peoples property. Not so, in this day and age. Both old and young have used that bench through the years. It was in an ideal spot on a hot summer day, located under a maple tree and in the shade of the bank. For the life of me, I do not know how it could have been destroyed and without someone hearing the noise.

That bench was solid - very heavy and must have faced a sledge hammer to go down in defeat. Shame on the person or persons responsible! Why not try to preserve and protect the town property? The feeling of doing good will exceed any thrill you have of destroying others property.

Fairs are still a weekend attraction. This Saturday is Bobcaygeon Fair, also Markham Fair is underway. Fairs have a lot to offer and I trust the rain slackens as it is most unbearable to wander around in the mud.

Here's something worth thinking about in view of the troubles that Ireland has faced recently. "A man walking down a Dublin Street had a man come up behind him and place a gun at his ribs. He asked 'Are you Protestant or Catholic?' Feeling the situation ticklish and not wanting to become another statistic, he decided to act neutral. 'Neither, I am a Jew!'" the assailant replied, with a big smile, "That makes me the luckiest Arab in Ireland."

The great man shows his greatness by the way he treats little men! How true. Good to hear that Lillian, Mrs. Charlie Brown, is home from hospital after a bout of illness.

Farm news and views in the area

FALL TIPS FOR THE MILKING HERD

Good pastures now may be filling, but they are low in nutrients, mainly because of the high water content. Poor pastures are exercise lots with a generous supply of fresh air. Cows do not milk on air or water. The cow's diet provide a known amount of dry matter each day.

All cows milking 40 lb. of milk or more need attention; they should be getting grain at the rate of one pound for every three pounds of milk produced, and a good feed of hay each day (and silage when it's available). Keep these cows in for an hour or two after the morning milking for the extra feed. Gradually increase the time and feed in the barn until the cows are staying in all day. Later you can reverse the timing and keep the cows in at night and out in the daytime.

This system allows the cows to gradually become accustomed to winter feeding and winter housing, and prevents a fall slump in production.

Cows freshening from now on should start on full winter rations. When these cows are fed properly, they will produce more milk per lactation, compared to cows freshening at any other period of the year.

Heifers due to calve in the next three months should be fed three to four pounds per day of dairy rations and offered roughage to supplement pasture. This probably means bringing them home from the pasture. Three weeks before freshening, heifers should be housed and fed with the fresh cows.

The ventilation system in your barn should be checked this fall. A good ventilating system will remove the moisture, without creating drafts (with doors and win-

dows closed). Check the fans, thermostats, hoods, inlets and the seal in the barn (broken windows, loose hay shoots, etc.). If assistance is required, consult the Agricultural Engineer at the Lindsay Agricultural Office.

4-H EXHIBITS

At Lindsay Fair a number of 4-H Clubs from Victoria and surrounding counties were invited to exhibit an educational display built by the 4-H Club members. Four of the exhibits were submitted by clubs from Victoria County. The best exhibit was from the Bobcaygeon 4-H Pony Club. They explained the causes of Swamp Fever which can be a serious problem with horses.

The Little Britain 4-H Club entry was second. Their display illustrated the methods of testing feeds for various nutrients.

Also displaying exhibits were the Fenelon Falls 4-H Calf Club and the Emily 4-H Pony Club.

Chatting with Irene 286-1674

There is an old English proverb; It never rains but it pours. I'm sure that is what we were all thinking last week. I'm sure of one thing, if one couldn't lose weight any other way, one could lose it driving on the streets that were not paved. It was bump, bump, bump, at every turn of the wheels. It was so wet that the streets couldn't be graded, for it wouldn't help, but one can be sure they will be out bright early this week, if it doesn't rain!

For those of you who have been wondering how Mrs. Earl Ward is, I'm pleased to tell you that she came home from the hospital last Saturday.

Now that October has come up on our calendars, be sure and mark the dates for the following on the calendar you look at the most. 1st - the campaign for the Institute for the Blind will be on the whole month; give as generously as you can for it could be you sometime. 2 - Family Fun Night at the curling rink proceeds towards the new library on October 14, 7-9 p.m. and fun for all. They are still looking for articles for the White Elephant table, leave at library or phone me. 3 - Last registration for figure skating October 15 at municipal office from 10-12 noon. 4 - Benefit dance at Carnarvon, Oct. 15 in evening. 5 - Public meeting of A.I.D. at municipal hall, at 2 p.m., October 16. 6 - A.C.W. Rummage Sale at Parish Hall on October 22. Last, but not least, I have just received word that there will be a Masquerade Dance in aid of minor hockey at the arena on October 29. Boy, that should be fun as there

has not been one of those for a while. There will be notices of all these things in the papers so check the ads for more details.

Congratulations to Mr. & Mrs. Donald MacGregor and Mr. & Mrs. Rick McElwain whose weddings were last Saturday. It takes more than rain to stop a wedding.

Last week my husband and I wanted to use the truck at the same time, now that creates a problem, but we solved it by me letting him out downtown, then doing my business. I then came home and got supper, before going back to get him. He was talking to a gentleman who asked me to go in for a beer. When I said no thanks, I was told he would not read my column anymore. I told him to be careful or I'd print that and he dared me to. Now I have enough Irish in me that I took his dare. Sorry, Brian, but you lost your bet, for you don't dare the Irish.

It was nice the Chris Pritchard was able to get home for his sister's wedding even if he had to leave right away again. As most of you know, Chris is based in Germany.

Don't forget that the contest for the Haliburton County Fair Crest is open until the end of December, 1977 and anyone can draw one and enter it.

While doing my wash last week I was talking to several ladies who said their well water got rust on their clothes. If anyone has an idea how to stop this let me know and I'll print it. Here are two ideas from a book; fold an old terry cloth bath towel over the end of the hose and fasten it

tightly as the water runs into your machine, the towel strains the water and catches the iron rust. Another one is to take a big old terry cloth bath towel and put it in the water in the machine and let it swish around for a few minutes, then remove the towel before dumping in the laundry. Hope one of these will work for you ladies.

Winner of the prize at M.J.'s Fashions this past week was Mrs. Milt Sears.

Congratulations to Beulah Cowan who was a really big winner in the last Wintario.

The Horticultural Society is finally moving and are holding their first meeting this Wednesday evening at 7:30 p.m. at Minden municipal building. I was beginning to wonder if I had lost another membership, for once a long time ago I paid my money in to help form a Historical Society, but it never got off the ground.

The Fiddling and Step Dancing Championships to be held at Haliburton Legion on Friday, October 7, sound like lots of fun as this is a first so don't miss it.

Remember that - No one else is useless in this world who lightens the burden of it to anyone else.

Now that Partridge season is here I have been looking for a recipe from the Old N.S. Cookbook as I think there is a lot of waste and I found one so here it is: Pluck first of course; then wash well with soda and water and rinse carefully, wipe dry inside and out. Stuff with your choice of dressing and sew up. Skewer the wings and legs to body. Lay thin layers of fat salted pork over the entire breast. Add 1/2 cup water in pan and place in moderate oven until tender, allowing 15 to 20 minutes per pound. Baste frequently with melted butter and water. Make a gravy of the drippings, thickened with browned flour. They must have had bigger Partridge in those days.

Adios and take care now.

Roof garden recreation facility at hospital

Funding through a bequest from the late Isabel F. Clarke will soon provide a Roof Garden Recreational Facility for the use of patients at the Ross Memorial Hospital.

Under the terms of the Clarke Bequest, the funds may only be used for special projects approved specifically by the Executor of the Estate.

In his report to the Ross Memorial Hospital Board of Governors, Thursday night, Administrator, Eric Freeborn said the plans for the Roof Garden Recreational Facility have been completed and construction is expected to start on or about October 1 and be completed by the end of November.

He said the facility will provide access to the first floor level roof area, which will contain planters and

recreational facilities which can be used by the ambulatory and wheelchair patients.

The planters are being designed so that patients can work the soil themselves for planting while standing or even from wheelchairs as part of their occupational therapy.

The Roof Garden Recreation Facility will provide the hospital with an appropriate-

ly furnished and landscaped area where patients may participate in outdoor therapeutic programs while enjoying the summer sun and fresh air. The Roof Garden Recreation area will be especially useful in providing the foregoing for the hospital's long term care patients on the Extended Care Unit.

The annual meeting of the Haliburton Highlands Chamber of Commerce will be held October 12 at the PineStone Inn and Country Club.

There will be a reception from 6:30 to 7:30 p.m., a

Chamber annual meeting is planned

dinner meeting beginning at 7:30 p.m. and then dancing until midnight.

M.W. Speck Turner, the manager of the Waterloo Chamber of Commerce, will be the special guest speaker.

EXTRA CIRCULATION

means more business at a lower cost.

Businessmen in Haliburton County and area know they get more business from their ads in

The Echo because of extra circulation.

That's why they choose The Echo 3 to 1.

"The Echo's got something going... Get The Echo going for you!"

Construction work on Highway 121, at the intersection of Highway 35 north of Minden, is moving ahead. When completed the hill on the highway will be

considerably lower. The construction work is being done during the repairs and widening of Highway 35 at the Minden bypass.

Snowdon

Council minutes

The regular meeting of council was held on Sept. 7, 1977 at 7:00 p.m. Reeve, Robert Vick was in the chair and Deputy Reeve, D. Smedmor and councillors, R. Burk, J. Francis and G. Simmons were also present.

Also in attendance were Messrs. J.O. Jackson, T. Flink and R. Young to discuss with council proposed land severance applications.

Moved by J. Francis, seconded R. Burk that the minutes of the August 10 meeting be adopted as read.

Moved by D. Smedmor, seconded by G. Simmons - that this council concurs with the resolution of the Townships of Anson, Hindon and Minden requesting that 100 per cent subsidy be paid by the Ministry of Transportation and Communications in respect of costs incurred in converting signs to the metric system.

Moved by D. Smedmor, seconded by R. Burk - That the Clerk-Treasurer attend the A.M.C.T.O. meeting in Lindsay on September 21 and the cost of the registration fee be borne by the township.

Moved by J. Francis, seconded by R. Burk - That the Road Superintendent attend the Ontario Good Roads Association school in Huntsville on October 23 and 24 and the registration fee be paid by the township.

Moved by D. Smedmor, seconded by G. Simmons - That the general accounts in the amount of \$24,210.10 and Welfare in the amount of \$636.70, for the month of August, be approved.

Moved by R. Burk, seconded by G. Simmons - That Road Voucher #8 in the amount of \$1,633.15 be approved for payment.

Moved by D. Smedmor, seconded by J. Francis - That under section 636(a) of The Municipal Act, the commercial assessment on property #130030002000000 be reclassified as residential and the business assessment on the property be cancelled as the business has not been operative during the current year.

Moved by J. Francis, seconded by R. Burk - That land severance applications #H-286/77 and H241/77 be approved.

Moved by D. Smedmor, seconded by R. Burk - That the township advertise for a helper for the Road Superintendent, said helper to be licensed to drive truck and be capable of acting as wingman, applications to close September 29 and duties to commence October 12.

Moved by G. Simmons, seconded by R. Burk - That this meeting be adjourned until the next regular meeting of council on October 12 at 7:00 p.m. unless called sooner by the Reeve. Time of adjournment 10:55 p.m.

Anson, Hindon and Minden

The twenty-third meeting of the council of the Townships of Anson, Hindon and Minden was held in the council chambers of the municipal building on Wednesday Sept. 28/77, commencing at 9:00 a.m., adjourning at 3:30 p.m.

Reeve, Reg Booth was in the chair and Deputy Reeve, Doug Pritchard, as well as councillors A. Coneybeare, L. Lonsberry and L. McKnight were present.

Also present were Richard Parisotto, Clerk-Administrator, Earl Kent, Road Superintendent and Richard C. Schell, Bylaw Officer.

Adoption of Minutes

77-353 D. Pritchard-A. Coneybeare: That the minutes of the meeting of Sept. 14/77 be approved. Carried.

Road Closing Proposed - Lot 2 Conc. 6, Minden

Mr. Harry Skead was present requesting a road closing in Lot 2, Conc. 6, Minden Twp. The Clerk was directed to prepare the necessary documentation and agreement for the next meeting.

Former Dump Sites Improvement

The Bylaw Officer was directed to arrange for the landscaping of the two former dump sites pursuant to the Agreement executed with the Ministry of the Environment.

Waterline Under Red Umbrella Road

77-354 L. Lonsberry-D. Pritchard: That Mr. Jack Kinsman be authorized to install a 14" water line under the Red Umbrella Road from his residence to Twelve Mile Lake. The work shall be first approved by the Road Superintendent as to method and restoration pursuant to Bylaw 83. Carried.

Severance Brady Lake Walter Austen

Mr. Walter Austen was present regarding severance at Brady Lake.

77-355 A. Coneybeare-L. McKnight: That Application for Consent #H208/77 be approved subject to the condition that no further severances of the property severed or retained within that lot shall be allowed without a plan of subdivision. Carried.

Proposed Dam Lot 5, Conc. 10 Minden Township

Letter was received from the Ministry of Natural Resources regarding a proposed dam in Lot 5, Conc. 10, Minden Township by Mr. Palle Larsen. The Ministry is to be advised of Council's concern of a possible road washout in case of a break in the dam.

Shuyler's Island Causeway and Mirror Lake Bridge

Letter was received from the Horseshoe Lake Property

Owner's Association relative to the Causeway to Shuyler's Island and the safety and speed of boat traffic under the Mirror Lake Bridge. The Clerk was directed to advise of the status to date of this matter.

Dumps Costs

Report was received from the Clerk on an Analysis of Waste Management Costs.

Caution Light Bobcaygeon Road & Newcastle Street

77-356 L. Lonsberry-D. Pritchard: That the Ontario Hydro be requested to investigate & submit to this Council a plan for installation and also an approximate cost for a three way caution light at the corner of Main and Newcastle Streets. Carried.

Christmas Lighting

77-357 L. Lonsberry-L. McKnight: That Wm. Payne of Modern Electric be requested to obtain prices from a certain Company which was requested previously regarding used Christmas fixtures for the Village of Minden. Carried.

O/S Invoice New Fire Hall

77-358 D. Pritchard-L. Lonsberry: That the invoice of Western Supplies Ltd. in the amount of \$527.30 relative to plumbing fixtures in the new Fire Hall be approved. Carried.

Sand Fill M.T.C. Project Hwy. 35 Bypass

77-359 A. Coneybeare-L. McKnight: That we provide the necessary sand for the M.T.C. Hwy. 35 Bypass Re-alignment Project at .08 per ton. Carried.

Ice Track Area Minden Park

77-360 D. Pritchard-A. Coneybeare: That the Kinsmen Club be permitted to create a pit area on the lower level for the Ice Race track and improve the grade of the road to the track. Further it is understood that the municipality may at any time in the future develop the lands pursuant to the approved Park Plan and the track cannot be considered as a permanent installation. Carried.

Designate Library Site

77-361 L. McKnight-A. Coneybeare: That the municipal lands in Pts. Lot 4 & 5 at the corner of Parkside Crescent and the Bobcaygeon Rd. be designated as the site of the future municipal library. Carried.

Drainage Henderson Bldg.

77-362 L. Lonsberry-D. Pritchard: That the Clerk be requested to contact Mr. Dave Henderson in regards to the problem of the surface water coming off his building and causing flooding in the adjacent walkway and also flooding of the basement of the building directly north of

his property. Carried.

Appoint Deputy Fire Chief

77-363 D. Pritchard-L. Lonsberry: That Mr. Ron Arbutnot be appointed to serve as Deputy Fire Chief for a period of six months effective October 1, 1977. Carried.

Temporary Waterline Bill Porter

77-364 That permission be granted to Mr. Bill Porter to install a temporary connection to the water system via

Rainy weather provides a chance to see Haliburton

EDITOR'S NOTE: The Haliburton County Echo and Minden Recorder will be

running a series of pictures and stories about various areas of Haliburton County.

Readers can write to us to suggest tours in the Highlands.

There is plenty to see this time of the year for tourists and residents in Haliburton County. This scene can be found on Hawk Road near Hawk Lake, at the end of a wooden water chute. This is one of the many side trips a person can take to see points of interest.

The route up Highway 35, north of Minden, in Haliburton County, is marked by a number of small lakes which provide some interesting scenery along the

way. Highway 35 is well known as a major tourist corridor and long been famous for its interesting scenery.

Highway 35 itself provides much of its own scenery for motorists travelling along the route. This is one of the many dramatic rock cuts along the road. Highway

35 provides both tourists and residents alike the opportunity to see some of the reasons why Haliburton has long been a favorite tourist area.

Cloudy, rainy and damp weather over the past few weeks has at least for some of us meant that most of our spare time is spent indoors.

On Sunday this writer decided to change that and take a little tour of the area. The part selected for the first part in a series of stories was Highway 35 north of Minden to the county line.

Highway 35 has long been famous for its beautiful scenery. Even in the rain most of the scenery is as awe inspiring as it is in the sunshine.

Highway 35 features a number of interesting points but by far the most prominent is the number of lakes one can see right from the window of the car.

These lakes range in size from nothing more than small ponds right up to large lakes many miles long. Some of the lakes are ringed with cottages of all sizes and descriptions while others are so sparsely populated that they bring my thoughts back to what it must have been like in Haliburton 100 years ago.

Highway 35 offers more than lakes though. This time of the year it provides many opportunities to see Haliburton in its full color. There are many hills and valleys to give many acres of great viewing anytime of the year.

Something that always has been a big attraction, and judging by the number of people who I saw on my tour, is the fast water areas in the rivers and streams.

Right on Highway 35 you can see places like Buttermilk Falls at the end of Halls Lake. If you don't mind taking some short side trips from the highway there are many other places to see, what canoeists and fishermen have for many years called white water.

There is Horseshoe Falls, or rapids, or Mitchells Rapids

or a couple of other names for the rapids south of Horseshoe Lake or Horseshoe Lake Rd.

You can always go see Buckside on the west side of the highway, northwest of Carnarvon. There is also the wooden chute from the dam on Hawk Road.

With all of the scenery on Highway 35, one still finds the highway itself to be one of the best parts of the beautiful area. Highway 35 has changed a great deal over the years but it is the highway that provides us with the opportunity to see the scenery. It was the construction of the highway that provided us with the awe inspiring rock cuts, twists and turns and the path around the lakes.

Scenery is a big part of Haliburton County and the Highway 35 corridor, north of Minden, certainly isn't lacking any. Rainy, cloudy and cool weather gives a lot

of people who normally won't do any touring, the opportunity to see much more of Haliburton County and its beauty.

THE HALIBURTON COUNTY ECHO

AND MINDEN RECORDER

Vol. 96 No. 7

Wednesday, October 5, 1977

Second Section

Archie Stouffer

Eagle presented to school

The Haliburton County Board of Education now has in its possession a Golden Eagle.

The eagle, which was killed accidentally, has been stuffed and is presently at Archie Stouffer School, Minden.

The Golden Eagle is classed as an endangered species according to a Toronto Star article of March 26, 1977. There are less than a dozen mating pairs in Ontario.

This particular eagle has a wing span of 240 cm. (7-8 ft.) a length from head to tail of 1 m. (3 ft.) and its weight before stuffing was approximately 4½ kg. (10 lbs.).

Mr. Burley, a teacher at Archie Stouffer and guardian of the eagle, was hunting about twelve years ago, with a student of that years class, Paul Warburton. Paul had shown Mr. Burley what he believed to be an eagles nest. Last February Mr. Warburton came across the eagle and donated it to the school. The Haliburton County Board of Education provided the funds for the taxidermist's services.

Mr. Burley has a letter from the Ministry of Natural Resources to permit the possession of the eagle.

Mr. Burley says that, once a proper display/shipping case has been assembled, he hopes to take the eagle around to the other schools in the county.

Youngsters at Archie Stouffer Public School in Minden have the opportunity to see this Golden Eagle. The stuffed bird was donated to the school. The Golden Eagle is said to be on the endangered species list.

Five charged with break and enter

Minden - Five persons have been charged in connection with a break, enter and theft at a cottage on Hawk Lake owned by Daniel O'Halloran of Toronto.

The break-in took place on Sept. 5.

Charged with break, enter and theft were Miles Maitland, 16, of Etobicoke, David Hoey, 18, of Etobicoke, Roy Lukas, 20, of Toronto, Thomas Neilson, 18, of Etobicoke and Scott Young, 18, of Etobicoke.

First Fiddle and Stepdancing Championships

Haliburton - The first annual Fiddle and Stepdancing Championships will be held this Friday, beginning at 1 p.m., at the Dysart Community Centre Auditorium.

The contest is being sponsored by the Royal Canadian Legion and the funds raised will be put into the building fund to put an addition on the present Legion in Haliburton. Harold Bannon is chairman of the show.

On Friday, from 1 p.m. to 5 p.m., along with the contestants there will be a special show by local talents Lisa Teatro and Lena McGuire, both of Maple Lake. The famous Leahy Family from Lakefield will also be performing at the afternoon show.

The evening show begins at 7 p.m. and will run until 11 p.m.

Marie Dawn Leahy will open the show with the singing of Oh Canada.

There will be a special contest during the evening with the ten municipalities in Haliburton County trying for the top award.

An added attraction for the evening will be a performance by the Leahy Family and a show by Curtis Gartshore of Minden.

To date 24 people have entered the contest but Mr. Bannon said there is still lots of room for more.

He also pointed out that there are 400 tickets on sale for the show and they can be purchased at the Legion.

Women lost in bush overnight

A Toronto woman is safe after spending a night alone in the bush around Little Kennis Lake last week.

The Minden detachment of the OPP report that Patricia Montieth of Toronto left her cottage around 6:10 p.m. and by 8 p.m. when she hadn't returned her husband called the police.

First thing in the morning the police went out with a dog and found Mrs. Montieth.

The police report that she was in good health.

Mrs. Montieth told The Haliburton County Echo and Minden Recorder that she spent the night in the bush, somewhat uncomfortably but was able to make due. She noted that it started raining at about 5 a.m. in the morning.

George Lawrence of Eagle Lake found that the cold damp weather in the past few weeks didn't do much to hurt his raspberries. On Sept. 29 he took these red and yellow berries out of his garden.

Gems of Truth

Faithful Messengers:

A letter-courier is entrusted to deliver the letter just as he had received it. Should he be found to tamper with the message enclosed he would be subject to a heavy penalty plus forfeiting his job. The contents of the message are none of his business nor can he be held responsible or accountable for the reception given to the news he delivers. No matter what the dispatched letter's message may do to grieve and hurt the recipient, there is nothing the courier of that message can do except deliver the tidings exactly as he received it for delivery. The only requirement of the courier is to be faithful to his trust.

In like exact manner God looks upon those who are the custodians of His Word. Jeremiah knew what it was all about and could truly declare "And he that hath My Word, let him speak My Word faithfully. Jer. 23:28. Such words literally limits the freedom of thought of every Christian and would-be teacher of truth. The Lord God has not left our race in ignorance of anything we need to know to obtain salvation, nor has He failed to warn the lost of the dire consequences of their rejection of His Words. This information He committed to writing by the hands of certain scribes whom He personally chose for their trustworthiness to His dictation. It is thus that the Word of God has come to us, and the modern messenger has no authority to change those words in any manner or degree. The stern warning is "He that hath My Word, let him speak My Word faithfully." That is the full extent of our trust and obligation, just to deliver the tidings the way they came to us!

There may be much in the Record which we would like to change, no one likes to be the bearer of bad news. So we would like to forget the fact of hell and judgment, and assure lost mankind that we have a very kind-hearted deity who is too indifferent to

the consequences of evil to punish anyone. Therefore, in some vague fashion all will some day be saved by some unknown means and since we are all God's children He will care for all of us ultimately. Apart from the fact that such thinking and teaching is just not true, and that God has never claimed to be the Father of those who follow and obey Satan, we become the worst of scoundrels if we allow ourselves to tamper with the form and meanings of the communication God entrusted to us to deliver to others.

The true Gospel is a message from God that warns man that unless Christ is received as Saviour and are born-again from above, they would perish in hell forever. The entrusted messenger of this news, being an enlightened and educated man, did not believe this, so he changed the message to read, "If we do the best we can, and seek to live up to the Golden rule and Sermon on the Mount, our kind God will accept us for at least trying. A changed message! The result of the great scholars of our times have left

a trail of apostasy which is not too hard to trace. Some years back they decided that while the Bible was alright in general, there were a few minor errors in it which required revision. So they began the now-historic procedure and called it "Higher Criticism." They took out certain chapters from some Books and even repudiated entire Books in other sections of God's Word. The lighted torch of "unbelief" soon spread its vicious blight into the field of education and today our school system is staggering under the moral decline of discipline and reverence for a Book no longer believed in. Our present wave of crime and flood of drunkenness and the modern license of all evil indulgences, the lottery included, stems directly from the evil root of a dishonest attitude to the Word of God.

What the final climax of this will be is not too hard to see to the discerning child of God and it should be a renewed call to be faithful in presenting the message to mankind just exactly as the Author has given it.

Evangelist will be in Wilberforce

Mervle Dolan is one of Canada's foremost evangelists. Born in Peterborough, Ontario, he trained for the ministry at McMaster University and McMaster Divinity School. He is an accredited Baptist minister in the Baptist Convention of Ontario and Quebec.

After twelve years of pastoral experience in two churches, Mervle Dolan is now in his 13th year of evangelistic work. He has conducted crusades in many parts of Canada and the United States.

Leighton Ford says, "Mervle Dolan is a man to whom I believe God has given the gift

of an evangelist in a very clear way. I have personally known Mervle Dolan for a number of years and count him as a fine and trusted Christian friend. I have every confidence in his spiritual integrity and the warmth of his commitment to Christ. Fine reports have come of the way in which God has blessed his preaching ministry to the winning of many men, women and young people to Christ. I am glad to commend his ministry as a faithful evangelist of Christ."

Paul Smith of the People's Church, Toronto, Canada, says, "Mervle Dolan has emerged as one of Canada's finest evangelists. He is a dynamic speaker with a warm personality and deep spiritual insight. Every message is grounded firmly in the Scriptures and his years of background as a pastor in one of Canada's major denominations gives him an appreciation that is sometimes lacking in a professional evangelist. God has used him for major crusades throughout Canada and the United States and the results have been most gratifying and unusually durable. I can commend him without hesitation as a most suitable evangelist for both single church crusades and united citywide efforts."

Desmond Hunt, of the Church of the Messiah, Toronto, says, "It seems that in every age of history God has called out certain of His servants to declare with simplicity and clarity the good news of Jesus Christ. This is the gift of the evangelist, and I believe that God has called Mervle Dolan to do this work in this day. I have known him for the past number of years and I believe that God has called Mervle Dolan to do this work in this day. I have known him for the past number of years and I believe him to be effective in this area of work. I thank God for the way in which he has been used."

The visit of these men to the Harcourt-Wilberforce area, during the last week of October, climaxes a year of planning and preparation. Their visit is eagerly anticipated.

The Word of God

Brian V. Sullivan

As we begin the Book of Acts we are told that as the disciples stood with Jesus, he was taken up and a cloud received him out of their sight (Acts 1:9-10). In the past few weeks we have noticed some of the things that occurred because of His ascension on high, but today we want to see how the scripture pictures it.

Let us go to the Book of Daniel, the 7th chapter and verses 13 and 14: "I saw in the night visions, and behold one like the Son of man came with the clouds of heaven, and came to the Ancient of days, and they brought him near before him. And there was given him dominion, and glory, and a kingdom, that all people, nations, and languages should serve him: his dominion is an everlasting dominion, which shall not pass away, and his kingdom that which shall not be destroyed."

We should have little problem identifying the main personages in this vision. One like the son of Man is explained by the continual reference Jesus made to himself as the Son of Man.

Coming in the clouds of heaven is exactly how He had left the disciples. To the Ancient of days would be none other than God. Now, notice that He was brought near before him and was given dominion, glory, and a kingdom. It is further declared that all nations (regardless of background, culture, language) should serve him (that's the universality of the gospel message, compare Matthew 28:18-20, Mark 16:15-16). He would be ruling over an everlasting kingdom. Well, if I believe what Daniel recorded, then I must accept that when Jesus returned on high he received His kingdom and indeed He did, as we will illustrate in the weeks ahead.

But, just now, let us turn to Revelation 5. The first four verses are occupied with the thought that no one is suitable or worthy to open the book. However, as we come to verse 5 we see that there was someone worthy. Let's notice the words of the elder: "Weep not; behold, the Lion of the tribe of Juda, the Root of David, hath prevailed to open the book, and to loose the seven seals thereof." Listen to the words of John

as he describes what he saw. "And I beheld, and, lo, in the midst of the throne and on the four beasts, and in the midst of the elders, stood a Lamb as it had been slain, having seven horns and seven eyes, which are the seven Spirits of God sent forth into all the earth. And he came and took the book out of the right hand of him that sat upon the throne. And when he had taken the book, the four beasts and four and twenty elders fell down before the Lamb, having every one of them harps, and golden vials full of odors, which are the prayers of saints. And they sung a new song, saying, Thou art worthy to take the book, and to open the seals thereof: for thou wast slain, and hast redeemed us to God by thy blood out of every kindred, and tongue, and people, and nation; and hast made us unto our God kings and priests: and we shall reign on the earth." (Revelation 5:6-10). Notice that in the balance of the chapter praises are given to "him that sitteth upon the throne, and unto the Lamb for ever and ever."

Yes, both of those texts illustrate that Jesus is now glorified at His Father's right hand. The Lamb of God has become the Saviour of the world. The Son of man is truly the Son of God. Peter put it best when he said: "Therefore let all the house of Israel know assuredly, that God hath made that same Jesus, whom ye have crucified, both Lord and Christ." (Acts 2:36).

collections
are closing**

by: Tom Farmer
The weather and the squirrels have been very co-operative this year and our white pine cone collections are drawing to a close. To date we have obtained from contract pickers 206.8 hectolitres of the sought after cones. All indications are that we will be able to meet our target of 250 hectolitres within the next few days.

Each year the Ontario Ministry of Natural Resources purchases seeds of various species of trees and shrubs from contract pickers.

SMALL
BUSINESS****Who Needs
Santa Claus?**

by JIM SMITH

Impressions caused by government spending notwithstanding, there is no Santa Claus. That's the bad news.

The good news is that it is possible to fight unemployment without causing inflation at the same time. Compared to that, Santa's a piker, anyway.

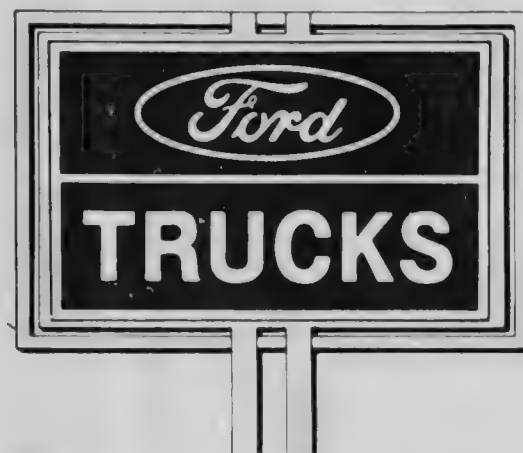

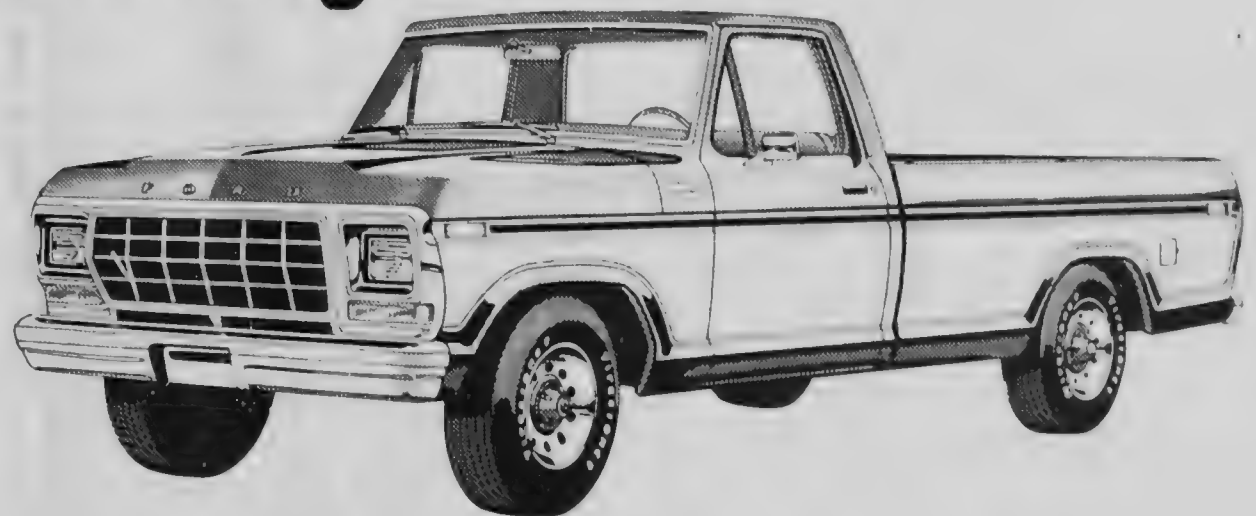

How can unemployment be cured? The answer is more obvious if we think of labour as soap. As every soap manufacturer knows, the best way to sell more soap is to reduce the price of soap. So the best way to increase the use of labour is to cut the price of labour, too.

We touched on this issue a couple of months ago when we first raised the question of Employment Tax Credits (ETCs). Basically, an ETC program would reduce taxes for any firm which increased its work force. The reduced taxes would be equivalent to cutting the price of labour. In the past few months, the Canadian Federation of Independent Business, the national organization that speaks for small business, has undertaken an extensive study of ETCs. In the latter part of September, the Federation proposed an ETC program to the federal government and called for a fall budget.

The ETC program proposed by the Federation provides for a tax rebate of 25% of the salary for every new employee up to a maximum rebate of about \$2900 per worker. The rebate would be deducted from the firm's annual corporation income tax payments or personal income tax payments in the case of a proprietor.

1978 AMC FULL 12-MONTH/20,000 KM NEW CAR WARRANTY

When you buy a new 1978 AMC car from an AMC Dealer, American Motors (Canada) Limited guarantees to you that for 12 months or 20,000 km from the date of delivery or first use, whichever comes first, it will, except for tires, pay for the repair or replacement of any part or parts which prove defective in material or workmanship.

All American Motors requires is that the car be properly maintained and used for normal use and service in Canada or the United States and that the repairs or replacements be made by an AMC Dealer. No other express warranty is given by American Motors.

Motors shall not be liable for loss of use of vehicle, loss of time, inconvenience, repairs required because of negligence, accident, misuse, lack of required and reasonable maintenance or other incidental or consequential damages. Some jurisdictions do not allow exclusion of consequential damages so all or part of the above exclusion may not apply to you, and to that extent such exclusions or part thereof as prohibited by law, shall be treated as if it had not been included in the Warranty. This warranty gives you specific legal rights and you may also have other rights which may vary from jurisdiction to jurisdiction.

Home of the Week

Plan Number: 70-1239:

Here's a contemporary three bedroom design which offers a number of amenities establishing a tone of luxury and open air spaciousness. The rustic exterior impression is in keeping with the almost rural openness of the indoor areas.

Four steps lead up from the sunken entrance foyer to the large L-shaped living-dining combination. The living room has a charming bow window and window seat, and the dining area leads onto the rear sundeck via optional sliding doors.

The U-shaped kitchen and breakfast nook may be closed off from the dining room - providing seclusion for entertaining.

The large family room, down three steps from the nook, connects to the rear patio and has a corner stone fireplace with a barbecue grill built in on the patio side.

A downstairs vanity bath, a laundry-utility room and a workshop to the rear of the two car garage complete the conveniences built into this design.

A partial basement under the kitchen and living-dining area and the unfinished room on the main floor allow abundant space for future expansion. This latter area, for example, could be developed into a den or office space for the professionally-oriented family.

Plan for Design No. 70-1239 may be obtained at a cost of \$60 for the first set and \$9 for each additional set, plus \$4.00 for postage and handling. B.C. residents please include 7 per cent sales tax.

Send for the current edition of Select Home Designs Series #34 featuring imaginative decorating and home improvement ideas plus 350 quality home plans of every type. Available for \$2.25 (\$1.75 plus 50 cents postage and handling). To order these items please send cheque or money order payable to the Home of the Week. Address to: Home of the Week, c/o The Haliburton County Echo and Minden Recorder, 382 West Broadway, Vancouver, B.C. V5Y 1R2.

WANT ADS ARE YOUR BEST BUY!

Ottawa and Small Business

From page 15

The benefits of the ETC program are so amazing that it's hard to imagine how Ottawa can avoid adopting the plan. Not only would it decrease unemployment, but the program in most cases would be better than free!

Better than free? Yes. It works like this. The firm receives, for example, \$2500 for hiring an extra worker at \$10,000 a year. The cost to the government is \$2500. But the government collects income taxes, unemployment insurance premiums, and Canada Pension Plan (or QPP) contributions which would amount to about a quarter of that \$2500 amount. In addition, the unemployed worker might have been collecting unemployment or welfare benefits; these would stop once the worker is hired.

Moreover, the newly employed worker increases the output of the firm. This additional output is taxed by the government. And, when the worker spends his wages, part of every dollar is collected in some manner of sales taxes.

Add all of the savings and additional revenues together and the sum is much greater than the small amount that the government pays out in the ETC. There's not another method of job creation which can come close to fighting unemployment this cheaply. No, there's no Santa Claus. But an ETC is the next best thing.

A tale of a sale

I must tell you the tale of the auction sale that I went to on Saturday. In Minden town it went around the sale was going to be held. In the curling hall, big enough for all the things to sell away. I gathered my dough and off I did go to spend some happy hours. The sky was grey, didn't look like a day for spending on the beach.

The auctioneer, he's quite a dear, was waiting for the crowd. Gather around came the calling sound and the auction sale began. These boxes here, they're not very dear, please buy them right away. From spot to spot, he sold the lot, and moved on to the next. My hand in view I took the few and soon gathered quite a lot.

In his hand, that darling man, a jacket of magnificent fur. Added a dress, and then the rest was mine for fifty cents. A lamp of old to me was sold, I smiled a mile wide. A bottle of rye standing four feet high, was mine for hubby's shelf. The suitcase though, I let it go, the price I couldn't pay.

The hours flew, my purchase grew, a table and a half they filled. Until no more articles left on the floor, the auction sale was done. I started in dismay at my purchases displayed, and wondered what hubby would think. Filled up the car, glad I hadn't too far, to go on the journey home. My husband was there waiting in his chair, he groaned when he saw it all.

I modelled the coat, on the air I did float, and I sure won't run out of books. Hubby was glad when he saw all I had and I lived for another day. Let me tell you the tale of the auction sale and I wait for the next auction call!

IN MEMORIAM

WELCH - Douglas, October 12, 1969.

Everyone that you loved,
Still has such love for you,
And cherishes deep within their hearts,
The things you'd say and do.
Yes, every day throughout the year,
We think of our Doug
With a love so sincere.

"More dearly than the spoken word can tell."

Loved always, Dad, Mom and family.

The streets are for the people.
Exercise your rights!
Take a walk.
